unconditionally and irrevocably guaranteed by

Heimstaden Bostad AB (publ)
(incorporated with limited liability in Sweden)

Under this €12,000,000,000 Euro Medium Term Note Programme (the "**Programme**"), Heimstaden Bostad AB (publ) ("**Heimstaden Bostad**", and in its capacity as guarantor of Notes issued by HBT (as defined below), the "**Guarantor**") and Heimstaden Bostad Treasury B.V. ("**HBT**" and, together with Heimstaden Bostad, the "**Issuers**", and each an "**Issuer**") may from time to time issue notes (the "**Notes**") denominated in any currency agreed between the relevant Issuer and the relevant Dealers (as defined below).

References in this Base Prospectus to the relevant Issuer shall, in relation to any issue or proposed issue of Notes, be references to whichever of Heimstaden Bostad or HBT is specified as the Issuer of such Notes in the applicable final terms document (the "**Final Terms**").

The payments of all amounts due in respect of the Notes issued by HBT will be unconditionally and irrevocably guaranteed by the Guarantor. If the relevant Issuer of a Series of Notes is Heimstaden Bostad, references herein to the Guarantor and the Guarantee, and related expressions, are not applicable and shall be disregarded in respect of such Series.

Notes may be issued in bearer or registered form (respectively "**Bearer Notes**" and "**Registered Notes**") or in uncertificated book entry form ("**VPS Notes**") settled through the Norwegian Central Securities Depository, *Verdipapirsentralen ASA* ("**Euronext VPS**"). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed €12,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under "*Overview of the Programme*" and any additional Dealer appointed under the Programme from time to time by the relevant Issuer (each a "**Dealer**" and together the "**Dealers**"), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "*Risk Factors*".

This Base Prospectus has been approved as a base prospectus by the Central Bank of Ireland (the "**CBI**"), as competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). The CBI only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CBI should not be considered as an endorsement of either of the Issuers or the Guarantor (in the case of Notes issued by HBT) or of the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes.

Such approval relates only to Notes that are to be admitted to trading on the regulated market (the "**Euronext Dublin Regulated Market**") of the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**"), the Oslo Stock Exchange's regulated market (*Oslo Børs*) or on another regulated market for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**").

Application has been made to Euronext Dublin for Notes issued under the Programme during the period of 12 months from the date of this Base Prospectus to be admitted to its official list (the "**Official List**") and trading on the Euronext Dublin Regulated Market. The Issuers have further requested that the CBI send to the Norwegian Financial Supervisory Authority (*Finanstilsynet*) (the "**NFSA**") in its capacity as the competent authority in Norway (i) a copy of this Base Prospectus and (ii) a certificate of approval pursuant to Article 25 of the Prospectus Regulation attesting that this Base Prospectus has been drawn up in accordance with the provisions of the Prospectus Regulation and the Commission Delegated Regulation (EU) 2019/980, for purposes of listing Notes on the Oslo Stock Exchange's regulated market (*Oslo Børs*).

Each of the Euronext Dublin Regulated Market and the Oslo Stock Exchange's regulated market (*Oslo Børs*) is a regulated market for the purposes of MiFID II. References in this Base Prospectus to the Notes being "**listed**" (and all related references) shall mean that, unless otherwise specified in the applicable Final Terms, the Notes have been either admitted (i) to the Official List and to trading on the Euronext Dublin Regulated Market or (ii) to trading on the Oslo Stock Exchange's regulated market (*Oslo Børs*), as may be agreed between the relevant Issuer and the relevant Dealer in relation to the relevant Series (as defined below).

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the European Economic Area (the "EEA"). The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

The requirement to publish a prospectus under the Prospectus Regulation only applies to Notes which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined in "*Terms and Conditions of the Notes*", as the case may be) of Notes will be set out in the applicable Final Terms which will be delivered to the CBI, and further distributed to the NFSA and, where listed, Euronext Dublin and/or the Oslo Stock Exchange (*Oslo Børs*) (as appropriate).

Copies of Final Terms in relation to Notes to be listed on Euronext Dublin will also be published on the website of Euronext Dublin, and copies of Final Terms in relation to Notes listed on the Oslo Stock Exchange's regulated market (*Oslo Børs*) will be published on the website of the Oslo Stock Exchange (*Oslo Børs*).

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the relevant Issuer, the Guarantor (in the case of Notes issued by HBT) and the relevant Dealer. The relevant Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market.

The Notes and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") or any U.S. State securities laws and may not be offered or sold in the United States or to, or for the account or the benefit of, U.S. persons as defined in Regulation S under the Securities Act unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

Heimstaden Bostad has been rated BBB (outlook stable) by S&P Global Ratings Europe Limited ("**S&P**"). S&P is established in the EEA and is registered under the Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**"). As such, S&P is included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. S&P is not established in the United Kingdom ("**UK**") but ratings issued by S&P will be endorsed by S&P Global Ratings UK Limited in accordance with Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**") (the "**UK CRA Regulation**"). As such, ratings may be used for regulatory purposes in the UK in accordance with the UK CRA Regulation.

Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will be disclosed in the applicable Final Terms and will not necessarily be the same as the rating assigned to the Guarantor by the relevant rating agency. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the ability of the relevant Issuer to fulfil its obligations under the Notes and that may affect the Guarantor's ability to fulfil its obligations under the guarantee contained in the Trust Deed (the "**Guarantee**") are discussed under "Risk Factors" below.

Amounts payable on Floating Rate Notes will be calculated by reference to one of CIBOR, EURIBOR, LIBOR, NIBOR and STIBOR as specified in the relevant Final Terms. As at the date of this Base Prospectus, the European Money Markets Institute, the administrator of EURIBOR and Danish Financial Benchmark Facility ApS, the administrator of CIBOR and Norske Finansielle Referanser AS, the administrator of NIBOR are included in ESMA's register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "**EU Benchmarks Regulation**"). As at the date of this Base Prospectus, the administrators of LIBOR and STIBOR are not included in ESMA's register of administrators under the EU Benchmarks Regulation. As far as the Issuers are aware, the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that ICE Benchmark Administration Limited and Swedish Financial Benchmark Facility AB are not currently required to obtain authorisation/registration (or, if located outside the EEA, recognition, endorsement or equivalence).

IMPORTANT INFORMATION

This Base Prospectus comprises a base prospectus in respect of all Notes issued under the Programme for the purposes of Article 8 of the Prospectus Regulation.

Each Issuer and the Guarantor accepts responsibility for the information contained in this Base Prospectus and the applicable Final Terms for each Tranche of Notes issued under the Programme. To the best of the knowledge of each Issuer and the Guarantor the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Base Prospectus is to be read in conjunction with all documents which are deemed to be incorporated in it by reference (see "*Documents Incorporated by Reference*"). This Base Prospectus shall be read and construed on the basis that those documents are incorporated and form part of this Base Prospectus.

Other than in relation to the documents which are deemed to be incorporated by reference (see "*Documents Incorporated by Reference*"), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus. Any website referred to in this Base Prospectus has not been scrutinised or approved by the CBI.

Neither the Dealers nor the Trustee (as defined below) have independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers or the Trustee as to the accuracy or completeness of the information contained or incorporated in this Base Prospectus or any other information provided by the Issuers or the Guarantor in connection with the Programme. No Dealer or the Trustee accepts any liability in relation to the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Issuers or the Guarantor in connection with the Programme.

No person is or has been authorised by the Issuers, the Guarantor, any of the Dealers or the Trustee to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuers, the Guarantor, any of the Dealers or the Trustee.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes is intended to provide the basis of any credit or other evaluation, nor should it be considered as a recommendation by the Issuers, the Guarantor, any of the Dealers or the Trustee that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuers and/or the Guarantor. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of any Issuer, the Guarantor, any of the Dealers or the Trustee to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained in it concerning the Issuers and/or the Guarantor is correct at any time subsequent to its date or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuers or the Guarantor during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

Notes denominated in NOK may not be offered, sold or delivered in Norway or to or for the benefit of persons domiciled in Norway, unless in compliance with the regulations relating to the offer of VPS Notes, including the registration in Euronext VPS of such VPS Notes.

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms or any Drawdown Prospectus in respect of any Notes includes a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a "**retail investor**" means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms or any Drawdown Prospectus in respect of any Notes includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a "**retail investor**" means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms or Drawdown Prospectus in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms or Drawdown Prospectus in respect of any Notes may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B OF THE SECURITIES AND FUTURES ACT (CHAPTER 289 OF SINGAPORE) - The applicable Final Terms in respect of any Notes may include a legend entitled "Singapore Securities and Futures Act Product Classification" which will state the product classification of the Notes pursuant to Section 309B(1) of the Securities and Futures Act (Chapter 289 of Singapore) (as modified or amended from time to time, the "SFA"). The relevant Issuer will make a determination in relation to each issue about the classification of the Notes being offered for purposes of section 309B(1)(a). Any such legend included on the applicable Final Terms will constitute notice to "relevant persons" for purposes of Section 309B(1)(c) of the SFA.

NOTICE TO CANADIAN INVESTORS - The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws. Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Base Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor. If applicable, pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non-Canadian jurisdiction, section 3A.4) of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the Dealers are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with the offering of the Notes contemplated in this Base Prospectus as completed by the Final Terms in relation thereto.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF NOTES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuers, the Guarantor, the Dealers and the Trustee do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuers, the Guarantor, the Dealers or the Trustee which is intended to permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the EEA (including Belgium, Norway, the Netherlands and Sweden), the UK, Singapore and Japan; see "*Subscription and Sale*".

NOTES ISSUED AS GREEN BONDS

None of the Dealers or the Arranger accepts any responsibility for any social, environmental or sustainability assessment of any Notes issued as Green Bonds. None of the relevant Issuer, the Guarantor (if applicable), the Dealers or the Arranger makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such "green" or similar labels. None of the Dealers or the Arranger are responsible for the use of proceeds for any Notes issued as Green Bonds, nor the impact, verification or monitoring of such use of proceeds. No representation or assurance is given by the Dealers or the Arranger as to the suitability or content of the Green Bond Framework or the suitability or reliability of any opinion or certification of any third party (whether or not solicited by the relevant Issuer) made available in connection with an issue of Notes issued as Green Bonds and with any Green Projects to fulfil any environmental, sustainability, social or other criteria. Any such opinion or certification is only current as of the date that opinion was initially issued and the considerations or criteria which are the basis of such an opinion or certification can change at any time. The providers of such opinions and certifications are currently not subject to any specific regulatory regime or oversight and as such, is not a recommendation by any Dealer or the Arranger to buy, sell or hold any such Notes. In the event any such Notes are, or are intended to be, listed, or admitted to trading on a dedicated "green", "environmental", "sustainable" or other equivalently labelled segment of a stock exchange or securities market, no representation or assurance is given by the Dealers, the Arranger, the Trustee, the relevant Issuer or the Guarantor (if applicable) that such listing or admission will be obtained or maintained for the lifetime of the Notes.

Presentation of Financial Information

Unless otherwise indicated, the financial information in this Base Prospectus relating to Heimstaden Bostad has been derived from (i) the audited consolidated financial statements of Heimstaden Bostad for the financial years ended 31 December 2020 and 31 December 2019 and (ii) the unaudited consolidated financial statements of Heimstaden Bostad for the six months ended 30 June 2021 (together, the **Financial Statements**).

Heimstaden Bostad's financial year ends on 31 December, and references in this Base Prospectus to any specific year are to the 12-month period ended on 31 December of such year. The Financial Statements have been prepared in accordance with International Financial Reporting Standards ("**IFRS**") issued by the International Accounting Standards Board.

HBT's first reporting period ended on 31 December 2020. HBT's financial statements have been prepared in accordance with Dutch generally accepted accounting principles. HBT is a financing special purpose vehicle, see further "*Risk Factors – HBT is a special purpose vehicle and investors should therefore consider the financial condition and liquidity of Heimstaden Bostad and the Group in addition to that of the HBT*".

The financial information provided for and discussed in this Base Prospectus and the financial statements of Heimstaden Bostad and the Group (as defined below) included in this Base Prospectus relate to the past performance of the Group. The future development of the Group could deviate significantly from past results due to a large number of internal and external factors. The historical earnings, historical dividends and other historical financial data of the Group are, therefore, not necessarily predictive of earnings or other key financial figures for the Group going forward.

Certain Defined Terms and Conventions

Capitalised terms which are used but not defined in any particular section of this Base Prospectus will have the meaning attributed to them in "*Terms and Conditions of the Notes*" or any other section of this Base Prospectus.

In addition, the following terms as used in this Base Prospectus have the meanings defined below:

- "**euro**", "**EUR**" and "**€**" refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended;
- "**NOK**" refers to the lawful currency of the Kingdom of Norway;

- "**Sterling**" and "£" refer to pounds sterling; and

References to a "**billion**" are to a thousand million.

References to the "**Group**" are to Heimstaden Bostad and its subsidiaries taken as a whole.

Certain figures and percentages included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown in the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

SUITABILITY OF INVESTMENT

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

STABILISATION

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

FORWARD LOOKING STATEMENTS

This Base Prospectus includes statements that are, or may be deemed to be, 'forward looking statements'. These forward looking statements can be identified by the use of forward looking terminology, including the terms 'forecast', 'believes', 'estimates', 'anticipates', 'expects', 'intends', 'may', 'will', or 'should' or, in each case, their negative or other variations or comparable terminology, or by discussions of strategy, plans, objectives, goals, future events or intentions. These forward looking statements include all matters that are not historical facts. They appear in a number of places throughout this document and include, but are not limited to, the following: statements regarding the intentions, beliefs or current expectations of the Issuers and/or the Guarantor (as applicable) concerning, amongst other things, the results of operations, financial condition, liquidity, prospects, growth, strategies of the Issuers and/or the Guarantor (as applicable) and the industry in which the Issuers and/or the Guarantor (as applicable) operate.

By their nature, forward looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward looking statements are not guarantees of future performance and the actual results of the Issuers' and/or the Guarantor's operations, financial condition and liquidity, and the development of the industry in which the Issuers and/or the Guarantor operate may differ materially from those described in, or suggested by, the forward looking statements contained in this document. In addition, even if the results of operations, financial condition and liquidity, and the development of the industry in which the Issuers and/or the Guarantor operate, are consistent with the forward looking statements contained in this document, those results or developments may not be indicative of results or developments in subsequent periods.

These and other factors are discussed in more detail under "*Description of Heimstaden Bostad*" and "*Description of HBT*", which should be read in conjunction with the risk factors set out in "*Risk Factors*" below. Many of these factors are beyond the control of the Issuers and the Guarantor. Should one or more of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary materially from those described in this document as anticipated, believed, estimated or expected. Except to the extent required by laws and regulations, the Issuers and the Guarantor do not intend, and do not assume any obligation, to update any forward looking statements set out in this Base Prospectus.

RISK FACTORS

In purchasing Notes, investors assume the risk that the relevant Issuer and/or the Guarantor, as the case may be, may become insolvent or otherwise be unable to make all payments due in respect of the Notes or under the Guarantee (as applicable). There is a wide range of factors which individually or together could result in the relevant Issuer and/or the Guarantor becoming unable to make all payments due. It is not possible to identify all such factors, as the relevant Issuer and/or the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the relevant Issuer's and/or the Guarantor's control. The Issuers and the Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their respective businesses and ability to make payments due.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the relevant Issuer and/or the Guarantor, and the industry in which they operate together with all other information contained in this Base Prospectus, including, in particular the risk factors described below. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

The following is not an exhaustive list or explanation of all risks which investors may face when making an investment in the Notes and should be used as guidance only. Additional risks and uncertainties relating to the relevant Issuer and/or the Guarantor that are not currently known to the relevant Issuer and/or the Guarantor or that they currently deem immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the relevant Issuer and/or the Guarantor and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Base Prospectus and their personal circumstances.

FACTORS THAT MAY AFFECT THE BUSINESS OF THE GROUP AND THE ABILITY OF THE RELEVANT ISSUER TO FULFIL ITS OBLIGATIONS UNDER NOTES ISSUED UNDER THE PROGRAMME AND (IF APPLICABLE) THE ABILITY OF THE GUARANTOR TO FULFIL ITS OBLIGATIONS UNDER THE GUARANTEE

Risks Relating to Macroeconomic Conditions

The on-going uncertainty and volatility in the financial markets and the state of the global economic recovery may adversely affect the Group's operations

Global financial markets continue to experience disruptions, including increased volatility and diminished liquidity and credit availability. Concerns about credit risk (including that of sovereigns) and the Eurozone crisis have increased recently, especially with the presence of significant sovereign debts and/or fiscal deficits in a number of European countries and the United States. This has raised concerns regarding the financial condition of financial institutions and other corporates located in these countries, having direct or indirect exposure to these countries, and/or whose banks, customers, service providers, sources of funding and/or suppliers have direct or indirect exposure to these countries. The default, or a significant decline in the credit rating, of one or more sovereigns or financial institutions could cause severe stress in the financial system generally and could adversely affect the markets in which the Group operates and the businesses and economic condition and prospects of the Group's counterparties or customers, directly or indirectly, in ways which are difficult to predict. Additionally, the developments surrounding the UK's exit from the European Union may have an adverse effect on European global economic or market conditions and the stability of European, foreign exchange and global financial markets, including the European markets served by the Group. The impact of these conditions could be detrimental to the Group and could adversely affect its business, results of operations, financial condition and/or prospects; its solvency and the solvency of its counterparties and customers; the value and liquidity of its assets and liabilities; the value and liquidity

of the Notes and/or the ability of the relevant Issuer to meet its obligations under the Notes and under its debt obligations more generally and, if applicable, the ability of the Guarantor to meet its obligations under the Guarantee.

Negative economic developments and conditions in Europe may affect the Group's operations and customers, as well as the prices of the Group's real property and tenant-owned apartments

The European economies in which the Group is present have been adversely affected by the uncertain global economic and financial market conditions. An economic slowdown or a recession, regardless of its depth, or any other negative economic developments in these principal countries of operation and involvement may affect the Group's business in a number of ways, including, among other things, the income, wealth, liquidity, business and/or financial condition of the Group, its customers and other business partners. The Group may not be able to utilise the opportunities created by the economic fluctuations, the value of the real property owned by the Group may decrease, and the Group may not be able to adapt to a long-term economic recession or stagnation. Further, although historically economic slowdowns and recessions have increased the demand for rental apartments in these countries, there can be no assurance that the Group will not experience declines in the demand for rental apartments during periods of economic slowdown or recession. The Group may also experience increased defaults on rent payments as a result of negative economic developments in Europe. Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Risks relating to Covid-19

The Group conducts its business within the real estate market and is consequently affected by general economic trends outside the Group's control. The occurrence of extraordinary events, such as the outbreak of disease epidemics, could have an adverse impact on the global economy as a whole and may lead to a global recession, or even depression. The outbreak of the Covid-19 coronavirus ("**Covid-19**"), which is considered a pandemic and has led to a major slowdown in economic growth during 2020 and 2021, partly due to the spread of Covid-19 itself, but even more so due to the governmental decisions enacted across different nations in order to try to contain Covid-19, such as quarantines, shut downs and restrictions on mobility. Whilst the direct and indirect impact of the Covid-19 outbreak remains uncertain, a number of central banks and governments have announced financial stimulus packages in anticipation of a very significant negative impact on GDP during 2020 and 2021. Concerns remain as to whether these policy tools will counter anticipated macro-economic risks. A prolongation of the outbreak could significantly adversely affect economic growth, and impact business operations across the economy generally and, by extension, real estate markets, both as a result of weakened economic activity and in terms of the health and wellbeing of employees being affected.

Such weakening of the economy and or operations could have a material adverse impact on the financial performance or operations of, or the cost of funding for, the Group. In addition, there is currently no reliable way to predict, with certainty, the timing or value of transactions affected. Thus, the outbreak of Covid-19 may lead to investments being postponed or planned acquisitions and/or divestments possibly not being carried out as planned, which could have a material adverse effect on the Group's business and possibilities to continue its growth. The longer the Covid-19 crisis continues it may become more difficult to raise capital, obtain loans or other financings or service existing debt.

Additionally, as of 30 June 2021, 7% of the fair value of the Group's investment properties was composed of commercial property and so the Group may lose rental income from its commercial tenants as the economic impact of Covid-19 materialises. Moreover, due to Covid-19, there is a risk that the Group's current or future tenants may choose not to enter into new leases or renew existing leases.

There is also a risk that the global downturn could affect the liquidity position of the Group's existing tenants, which in turn may require such tenants to postpone rental payments or cause defaults under lease agreements. Accordingly, the Covid-19 crisis' impact on the Group's current and future tenants could lead to increased vacancies and a decrease in rental income for the Group, which would have a negative impact on the Group's operations, financial position and earnings.

Risks Relating to the Group's Business Operations

Decreases in the occupancy rate and increases in the tenant turnover may weaken the Group's results

Tenant turnover is an integral part of the residential investment business, and results in costs to the Group, for example, related to the signing of rental agreements and minor renovations typically made in connection with a tenant moving out of the apartment. In recent years, the Group has tried to reduce tenant turnover through, for example, repairs enhancing the attractiveness of the apartments that it owns.

The Group's occupancy rate and tenant turnover depend to a great extent on general economic factors and the level of new-build construction activity. The occupancy rate of the Group's properties has a significant impact on the Group's business. The Group aims to secure a high letting rate by, among other things, actively developing its property portfolio to meet the demand for residential and commercial premises. If the vacancy rate increases, the Group will lose rental income while having to cover the maintenance costs which could have a material adverse effect on the Group's business, financial condition, result of operations and future projects.

Decrease in fair value of the Group's properties will result in revaluation losses

The Group's real estate properties are reported at fair value in the balance sheet and any change in the fair value of the Group's properties is recorded in the income statement for the period during which the revaluation of the Group's properties occurs. Unrealised changes in value do not affect the cash flow. Fair value of investment properties represents the price in the local primary market taking into account a number of factors, some of which are real estate specific, such as the condition and location of the property as well as occupancy ratio and operative expenses whereas others are market-specific, such as yield requirements and cost of capital that are derived from comparable transactions on the real estate market. Decreases in the fair value of the Group's properties could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects. In addition, decreases in the fair value of the Group's properties would have negative effects on the Group's performance indicators, particularly the net asset value, which could have a negative influence on the rating of Heimstaden Bostad.

Property valuation is subjective and uncertain to a certain extent

Although the Group's properties in Denmark, Sweden, the Netherlands, Germany and the Czech Republic are valued by qualified external valuers on a quarterly basis and the Group's investment properties in Norway, are valued by qualified external valuers on an annual basis in respect of the residential part of the portfolio and on a quarterly basis in respect of the commercial, parking and development part of the portfolio, the appropriateness of sources of information used and the credibility of the valuations are, to a certain extent, subjective and, thus, subject to uncertainty. The Group's real estate properties are accounted for in the balance sheet at actual value and the changes in value are accounted for in the income statement. Non-realised value changes do not affect the cash flow. For valuations in Denmark, Sweden, the Netherlands, Germany, the Czech Republic and the commercial/parking part of the portfolio in Norway, the discounted cash flow method is used as the main method, and for valuations of the residential part of the portfolio in Norway, the sales comparison method is used as the main method for determining value.

Rental prices in the property portfolio are expected to follow inflation over time. Most commercial leases include indexation, which means that rent increases at the same rate as the Consumer Price Index (the "CPI") during the leasing period. Assumptions have also been made regarding future operating and maintenance payments. These assumptions are based on historic outcomes and future projections as well as estimated standardised costs. Operating and maintenance costs are adjusted upwards each year by inflation. Yield requirements and the cost of capital used in the valuation model have been derived from comparable transactions in the property market. Important factors in choosing a yield requirement are location, rental rate, vacancy rate and the condition of the property. Comparable valuations are based on data from historical transactions of condominiums and with additional certain assumptions at a specified date. In the event of significant and rapid market changes, such historical data may not accurately reflect the current market value of the Group's properties. Furthermore, the assumptions may prove to be inaccurate, and adverse market changes since the date when such assumptions were made may cause significant declines in the value of the Group's properties. In addition, the use of different assumptions or valuation models would likely produce different valuation results.

As a result of the factors above, there can be no assurance that the valuations accurately reflect the current market value of the Group's properties and property-related assets as at the date of valuation or any other date. Incorrect assumptions or flawed assessments underlying the valuations, or materialisation of any of the above risks, could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Increasing refurbishment and maintenance costs may result in a decreased profit margin or increased rents and thus decreased demand for properties

The Group continuously carries out refurbishment and maintenance repairs in its properties, which mainly result from their condition and requirements for energy-efficiency. The costs related to the refurbishment and maintenance of properties are significant and relate mainly to plumbing, external walls and roofs, window and balcony renovations. Residential buildings must typically have their plumbing refurbished within certain time intervals, which usually covers renewal of both water and sewage pipes as well as new bathrooms and kitchens. External walls, roofs and balconies must also be renovated periodically.

The Group expects the cost for refurbishment and maintenance repairs in the future to remain at the present level in proportion to the size of the Group's property portfolio. However, increasing refurbishment and maintenance repair costs may arise, for example, from increasing legal requirements for energy-efficiency, and there can, therefore, be no assurance that the amount spent on refurbishment and maintenance repair by the Group could not significantly increase from the level currently expected by the Group.

If refurbishment and maintenance costs were to increase significantly, the profit margin of the Group's properties may decrease or the Group may be required to increase rents, which may, in turn, result in a decreased demand for the Group's properties. As a result, the Group may not be able to fully pass on the costs of refurbishment and maintenance to its customers and the Group's investments in refurbishment and maintenance may not generate the expected return. Any of these risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

The Group's property development may give rise to liabilities that can have significant effects

The Group's property development may expose it to potential liabilities based on defects in the buildings, materials, design or the quality of the work. Standard form contracts that are used by construction designers limit the designer's liability to the value of the properties constructed, so the Group is liable for defects that exceed this amount. Materialisation of the Group's liabilities for construction defects, based on its own actions or based on the actions of the external designers or construction companies, could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects and therefore impact the value of an investment in the Notes.

Heimstaden AB (publ) could fail in the management of the "Heimstaden" brand

The Group's success and its ability to differentiate itself from other real estate companies in the markets in which it operates are partially dependent on the value of the "Heimstaden" brand. The "Heimstaden" trademark is owned by Heimstaden AB (publ) and licensed to the Group. The "Heimstaden" brand holds a great significance for both the Group's business operations, opportunities for it obtaining external financing under favourable terms and the implementation of its strategies. The integrity of the "Heimstaden" brand is important in all parts of its business (both for residential and commercial properties) and to the Group's business partners, such as municipalities, construction companies and lenders. In addition, corporate social responsibility forms part of the Group's customary long-term activities and, for example, many institutional investors impose stringent demands on the Group's sustainability efforts. Negative publicity or negative customer experience could have an adverse effect on the "Heimstaden" brand and its development. Should the "Heimstaden" brand lose value, regaining any lost brand value might prove impossible or require incurrence of significant costs. This, in turn, could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Heimstaden Bostad is a holding company; it is reliant on dividend and group contribution upstreaming

Heimstaden Bostad is a holding company. As is common with property groups, its material assets are its shareholdings in its subsidiaries and its associated companies. Heimstaden Bostad may use some of the proceeds of the sale of the Notes issued by it to repay certain of its own debts, and may on-lend proceeds under intercompany loans to its subsidiaries for them to repay or refinance certain of their indebtedness. Other than the receivables under intercompany loans and any other intra-group loans of proceeds made in connection with other financing transactions, Heimstaden Bostad depends on the distribution of dividends and group contributions and other payments from its subsidiaries. In meeting its payment obligations under the Notes issued or guaranteed by it, Heimstaden Bostad is dependent on the profitability and cash flow of its subsidiaries, whose ability to make dividend or similar distributions may be subject to restrictions as a result of factors such as low profitability, restrictive covenants contained in loan agreements and ancillary

agreements such as pledge agreements, foreign exchange limitations, regulatory, fiscal or other restrictions. In the event that Heimstaden Bostad's subsidiaries are not able (in whole or in part) to make the expected dividends or similar distributions to Heimstaden Bostad, this could impact Heimstaden Bostad's liquidity and therefore its ability to make payments in respect of its obligations in respect of the Notes.

Dependency on Heimstaden AB (publ) as asset and property manager

The Group is dependent on Heimstaden AB (publ), together with other group subsidiaries, to provide it with head office functions such as legal, accounting, treasury, investment team, HR, communications and senior management, including the CEO. Wholly owned subsidiaries of Heimstaden AB (publ) in Denmark, Sweden, the Netherlands, Germany, Norway, Poland and the UK, and subsidiaries of Heimstaden Bostad in the Czech Republic, are responsible for providing property management and facility management to the Group. The Group's success is, to a large extent, dependent on Heimstaden AB (publ) and certain of its subsidiaries continuing to provide services at an acceptable cost and with a satisfactory level of quality. Any changes to the cost or quality of these services or any interruption of these services could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Loss of key personnel or failure in recruiting new key personnel may undermine the Group's operations

The Group's financial performance is dependent on the contribution of Heimstaden AB (publ)'s key personnel. Key personnel include Heimstaden AB (publ)'s senior management and a number of other employees in key positions. The Group's success is, to a large extent, dependent on Heimstaden AB (publ)'s ability to recruit, motivate and retain highly skilled staff at every level of its organisation. Heimstaden AB (publ) may fail in retaining key personnel and recruiting skilled staff. Any loss of senior management or other employees with special expertise could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Dependency on the ultimate majority shareholder

The ultimate majority shareholder of Heimstaden AB (publ) (the majority shareholder of Heimstaden Bostad) is Ivar Tollefsen, who as of the date of this Base Prospectus, owns, through his wholly owned company, Fredensborg AS, indirectly 70.8% of the share capital and 96.0% of votes in Heimstaden AB (publ), which in turn owns 45.7% of the capital (where capital means Heimstaden Bostad's net asset value excluding non-controlling interests and hybrid capital) and 50.3% of the votes in Heimstaden Bostad, which in turn owns 100% of the common shares and 100% of the votes in HBT. Ivar Tollefsen may, therefore, be able to prevent or delay a change of control in respect of the Group, or take other actions that may be contrary to the interests of the Group's other stakeholders. Further, the personal connections and business relationships of Ivar Tollefsen are important to the conduct of the Group's business. No assurance can be given that he will continue to make his services available to the Group indefinitely. The Group does not maintain any 'key-man' insurance on Ivar Tollefsen.

Variations in supply and demand on the residential market and the market for commercial premises may affect the value of properties and rental levels

The Group's income is affected by the occupancy rate of the properties, the possibility of charging market-related rents as well as customers' ability to pay rents. The occupancy rate and rental levels are largely determined by general and regional economic trends and, in relation to Denmark, Sweden, the Netherlands, Germany and the Czech Republic, the rental levels are in addition affected by applicable rent regulations (please see "*Risk Factors - Rental regulations may restrict the group's ability to increase rents*").

The residential market is sensitive to fluctuations in supply and demand. Residential prices in the European markets in which the Group is present have historically followed macroeconomic development in a cyclical manner, while the demand for rental apartments has historically been countercyclical. The value of properties and rental levels are affected by a number of factors, including events related to domestic and international politics, interest rates, economic growth, the availability of credit and taxation. Changes in supply and demand on the property market in specific areas within the countries where the Group is present, resulting from new construction, investor supply and demand and other factors, may also materially affect the values of properties regardless of the overall development in these residential markets.

In addition, an oversupply of rental apartments or commercial premises could lead to rent decreases, which could have an adverse effect on the Group's rental income. A decrease in the prices of apartments and commercial properties is likely to have a direct impact on the fair value of the Group's property portfolio. The required return may increase in the future, which could lead to a reduction in the value of the Group's property portfolio.

Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Rental regulations may restrict the group's ability to increase rents

The ability of the Group to increase rents under its tenancy agreements may be limited by applicable rent regulations in the jurisdictions in which the Group's properties are located. For example, in Sweden, there is a legal principle of "utility value" (Swedish: *Bruksvärdesprincipen*) which entails that rent levels should be proportionate to the quality and standard of the residential unit in question and can only be increased to a level that is in line with the rent that is charged on other comparable residential units (consequently, rents can only be subject to more significant above-inflation increases when the residential units have been upgraded). In the context of the Group's development projects that relate to the upgrade of the Group's properties, to the extent that the Group is or becomes restricted by applicable rental regulations from increasing the rent payable on such upgraded properties, this could have a material impact on the Group's ability to recover the costs and expenses associated with the upgrade of those residential units and this could, in turn, have a material impact on the Group's operations, earnings and/or and financial condition.

The further tightening of any applicable rental regulations in a specific market could have a negative impact on the market rental rates payable in that market. Any general decreases in the rental levels of the Group's properties as a result of decreases in market rental rates could have a negative effect on the value of the Group's properties and this, in turn, could have a material impact on the growth and financial prospects of the Group.

Changes in legislation may adversely affect the value of the Group's properties or results, increase its expenses and/or slow or halt the development of investments

The Group must comply with a wide variety of laws, regulations and provisions, including urban planning regulations, construction and operating permits, building standards, construction codes, health, safety, environmental, competition and labour laws, laws relating to rent levels and the rights of tenants as well as corporate, accounting and tax laws. Changes in such laws, regulations and provisions or their interpretations could require the Group to adapt its business operations, assets or strategy, potentially leading to a negative impact on the value of its properties or its results, an increase in its expenses and/or slowing or even halting of the development of certain investments. In particular, requirements for energy efficiency have become more stringent in recent years, which results, among other things, in increased construction prices.

In order for the Group's properties to be used and developed as desired, various permits and decisions can be required, including local plans and various kinds of property registrations, which are approved and given by, for instance, municipalities and authorities, and which are resolved on both a political and on an administrative level. There is a risk that the Group in the future is not granted the permits or decisions necessary to conduct and develop its business as desired. Further, there is always a risk that decisions are challenged by third parties and, as a result thereof, are delayed significantly, or that the established decision making practice or the political will or direction are changed in the future in an adverse manner for the Group.

Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

The Group is subject to possible future changes in tax laws and regulations

Tax laws and regulations or their interpretation and application practices may be subject to change in the countries in which the Group operates. Historically, the Group has used tax optimisation arrangements, such as utilising tax losses from companies it acquires to reduce its tax burden. However, there can be no assurance that the Group will be able to continue to rely on tax losses carried forward as there could be changes in tax laws and regulation or their interpretation and application. This would mean that the Group

could be liable to pay additional tax which could have a material adverse effect on the Group's business, financial condition and cash flow.

Under EU Directive 2016/1164 there is, for example, a general limitation for interest deductions by way of an EBITDA-rule under which net interest expenses should be deductible only up to a certain percentage of the taxpayer's EBITDA for tax purposes. Local legislation in Europe similar to or based on the EU Directive 2016/1164 has been or may be implemented, and may cause the Group's final tax allowance, attributable to interest, to decrease as a result of the reduced allowance cap, which would result in lower profits after tax.

Tax laws and regulations, or their interpretation and application, may also change in other ways in the countries in which the Group operates. It is uncertain to what extent such future changes may affect the Group. Such changes may, among other things, have an adverse effect on the Group's cash flow and profit after tax as well as its business and future prospects.

Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Legal or regulatory proceedings or claims could have a material adverse effect on the Group

The Group may become involved in, or a subject of, legal or regulatory proceedings or claims relating to its operations. It is inherently difficult to predict the outcome of legal, regulatory and other adversarial proceedings or claims, and there can be no assurance as to the outcome of such proceedings or claims, whether existing or arising in the future. In the normal course of its business operations, the Group could be involved in legal proceedings relating, for example, to alleged breaches of contract by the Group and employers' liabilities and be subject to tax and administrative audits. Any unfavourable judgment against the Group in relation to any legal or regulatory proceedings or claims, or the settlement thereof, could have a material adverse effect on the Group's reputation, business, financial condition, results of operations and future prospects.

Failures of regulatory compliance or business ethics could adversely affect the Group's reputation and operations

The Group collaborates with a number of stakeholders (colleagues, customers, shareholders, partners, suppliers and contractors, etc.) and has broad customer and supplier bases. Many participants are involved within the Group's operations and services and products are procured through subcontractors at several levels. Despite procurement requirements that the Group has put in place, it is difficult for the Group to get an overview of its extended supply chain and there is a risk of activities occurring that violate the Group's values, breach its Code of Conduct, infringe human rights, involve corruption or breach regulations. There is also a risk that employees will commit such violations in their interactions with colleagues, customers and other actors.

Such shortcomings in ethical standards and/or regulatory compliance could result in financial losses, sanctions from supervisory authorities, tarnished reputation and delisting of Heimstaden Bostad's equity and/or the Group's debt securities. The realisation of such risks could adversely affect the Group's results and financial position.

As a large player in the property industry, risks to the Group are also found in health and safety, corruption and human rights. These risks may be found internally in the Group as well as at suppliers and partners who work on behalf of the Group. This social responsibility risk could give rise to significant damage to the Group's reputation, result in legal or regulatory proceedings and could have a material negative impact on the Group's operations, earnings and financial position.

Apartment renting and construction are highly competitive businesses

Renting apartments is a highly competitive business in the markets in which the Group is present. The Group's main competitors in the rental apartments business are private households, municipalities, parishes, foundations and corporate investors. The competition for attractive plots has led to a steep increase in plot prices. Furthermore, an upward trend in construction usually increases construction prices, which, in turn, decreases the profitability of construction projects and delays the commencement of new projects. There can be no assurance that the Group can meet the intensifying competition on the apartment renting market.

Increasing competition could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

The Group's operations may contaminate the environment

The Group must comply with all local regulations in relation to the environment and health and safety in respect of its properties. The main environmental impacts caused by the Group's operations relate to contaminated soil. Soil contamination can cause substantial delays and increase the cost of construction projects (including new construction as well as conversions and extensions).

As the owner of the properties and land, the Group could be held liable for deterioration, damage, encumbrance or other hazardous causes originating from the operation of the properties. Any such event or material decrease in the value of the properties, or environmental issues that are not known or not recognisable at the time of the purchase or occurring at a later date, could have a material adverse effect on the business and financial condition of the Group.

The Group has established an environmental policy and works actively to address environmental issues. Under legislation in many of the countries in which the Group operates, the party conducting an activity which has contributed to pollution is also responsible for treating it. If the party conducting the activity cannot carry out or pay for such treatment and the party acquiring the property was aware of, or should have discovered the pollution, then the acquirer is responsible for carrying out the treatment. Under legislation in certain countries in which the Group operates, the party conducting an activity which has contributed to pollution is responsible for treating it, along with any other person who is competent and actually able to prevent or limit a violation of such legislation (for example, the owner of property on which polluting activities were carried out). Under certain circumstances, previous owners and current owner can also be held liable for pollution. An acquirer may be required to observe restrictions on the use of land laid out in any "after-care plan" agreed pursuant to such legislation.

The costs of any removal or clean up that may be necessary due to any deterioration, contamination, damage, encumbrance or hazardous materials may be higher than anticipated by the Group. Failure to comply with environmental regulations, or the need to comply with stricter new environmental regulations that may be introduced, could lead to higher costs or hinder the development of the Group's operations. There can be no assurance that the Group could not become liable for material environmental damage or other environmental liabilities in the future. Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Risks related to climate change could adversely affect the Group's operations

From the perspective of the Group, climate change presents the risk of damage to property caused over time by altered weather conditions, rising sea levels and other changes in the physical environment that affect properties. As a property business, these risks could have a material adverse effect on the Group compared with other businesses as the Group relies on its physical infrastructure to generate its income. For example, the Group owns properties in Denmark (mainly the region of Greater Copenhagen) that are situated near to the sea and climate change may cause damage to those buildings as a consequence of flooding. There is also a risk that certain construction materials may be unable to cope with the stresses that a changed climate involves. As climate change is ongoing, these risks could potentially increase in the long term. This could mean a greater need for investments in properties situated in vulnerable areas. Investments in the wrong type of measures for properties could lead to the risk of unprofitable investments if climate risk is not appropriately considered and failure to invest at all in mitigation measures could result in investments being written off. Climate change could also entail higher operating expenses. In addition, environmental-political decisions could affect the Group, not least in the form of higher taxes or necessary investments. Moreover, increased climate related requirements imposed by investors, tenants and other stakeholders could also affect the Group. As a real estate business, these risks could have a material adverse effect on the Group compared with other businesses as the Group relies on its physical infrastructure to produce its income. The Group also has portfolios concentrated in several cities across Europe (see "*Description of Heimstaden Bostad – Investment Property Portfolio – Property Value*" below) and if climate change detrimentally impacts such cities then the value of such portfolios, and the earnings capacity from such portfolios, could reduce significantly. Moreover, the Group's business could also be affected by increased climate related requirements imposed by regulatory authorities, investors, tenants and other stakeholders, for example a requirement to reduce the Group's CO₂ emissions. Any such changes or new requirements could adversely affect the Group's operations, results and financial position.

Potential illiquidity of the property market could make it difficult for the Group to dispose of properties

In accordance with its strategy, the Group makes selective divestments of properties. Such divestments may be affected by many factors beyond the Group's control, such as the availability of bank financing to potential buyers, interest rates and the supply of and demand for properties. A possible lack of liquidity in the property market may limit the Group's ability to sell its properties or modify its property portfolio in a timely manner in response to changes in economic or other conditions. Should the Group be required to divest part of its properties due to, for example, its inability to obtain financing, there can be no assurance that such divestments will be profitable or that such divestments will be possible at all, if the market functions inadequately or is illiquid. Unsuccessful divestments of properties could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Potential future acquisitions and recently completed acquisitions may contain inherent risks and could lead to overestimates and non-identification of all potential risks and liabilities

Acquisition of properties constitutes a central part of the Group's business model. The acquisition of real estate requires, among other things, an analysis that is subject to a wide variety of factors, including subjective assessments and assumptions as to current and future prospect. It is possible that the Group may overestimate the potential of a real estate asset when making acquisition decisions or may base its decision on inaccurate information or assumptions that turn out to be incorrect. The Group may also underestimate the likelihood that a newly acquired real estate asset will require substantial renovation or capital repairs. Such errors may only become apparent at a later stage and force the Group to recognise fair value losses on its statement of financial position and income statement.

Furthermore, the Group cannot guarantee that its due diligence when acquiring a real estate asset will uncover all the potential liabilities and risks related to the property (such as construction defects) or that it will have recourse to the seller of the property for the non-disclosure of such risks. Official information in the land register of some of the countries in which the Group has its operations or assets may not be accurate and complete. Thus, although the Group may have to rely upon the information contained in land registers, it may not have effective recourse against the government of the relevant country if the information upon which the Group relied in deciding whether or not to make an investment was inaccurate, misleading or incomplete.

Furthermore, the Group may acquire properties in new jurisdictions and it may not be as familiar with the commercial, legal or regulatory environment as its current geographical markets. As a result, the Group may not be able to accurately judge its potential return on investment and such returns may be lower than expected and materially impact the financial position and income statement of the Group.

Additionally, material acquisitions for the Group, such as the acquisition in 2019 of a Dutch property portfolio and in 2020 of a Czech property portfolio, may exacerbate any of the above risks given the large scale of the acquisitions relative to the size of the Group.

Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

System malfunctions in the Group's operations may decrease the efficiency and/or profitability of the Group's operations

The Group's operations are dependent on information systems and on its ability to operate such information systems efficiently and to introduce new technologies, systems and safety and back-up systems. Such information systems include telecommunication systems as well as software applications that the Group uses to control business operations, manage its property portfolio and risks, prepare operating and financial reports and to execute treasury operations. The operation of the Group's information systems may be interrupted due to, among other things, power cuts, computer or telecommunication malfunctions, computer viruses, defaults by IT suppliers, crime targeted at information systems, such as security breaches and cyber-attacks from unauthorised persons outside and inside the Group, or major disasters, such as fires or natural disasters, as well as human error by the Group's own staff. Material interruptions or serious malfunctions in the operation of the information systems may impair and weaken the Group's business, financial condition and the profitability of its operations. The Group may also face difficulties when developing new systems and maintaining or updating current systems in order to maintain its competitiveness. In particular, malfunctions in its IT systems could delay the Group in issuing rental

invoices to its customers and/or prevent the Group from renting available apartments. Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Incorrect or inadequate processing of sensitive information

The Group processes and stores information and data of various kinds in both electronic and physical form, including data about tenants and, to the extent that it exists, insider information. Among other things, the Group processes personal data relating to employees, consultants and tenants. When the Group processes such data, it is of great importance that the processing takes place in accordance with, among other things, the local laws of each jurisdiction in which it operates and EU regulations, such as the General Data Protection Regulation (EU) 2016/679 ("**GDPR**"). For example, there are strict requirements for informing people about what personal data the Group processes and that this processing takes place in a manner that is consistent with the purpose for which the personal data was collected. If the Group processes this personal data inadequately, there is a risk that the Group will have to pay penalty fees for violations of, for example, GDPR as caused by such events. In addition, there is a risk that the Group will fail to properly handle confidential or sensitive information or that such information will be disclosed or made available to third parties as a result of, for example, data breaches or so-called extortion viruses or extortion programs (ransomware). If the Group fails to properly process personal data, breaches the GDPR or other applicable privacy law, does not comply with privacy provisions in its agreements or if confidential or sensitive information is disclosed or made available to third parties, it may have a material adverse effect on the Group's reputation, business, financial condition, results of operations and future prospects.

The Group could incur losses not covered by, or exceeding the coverage limits of, its insurance

The Group has insurance policies, for example, in respect of property, business interruption and liability for damages. However, it is difficult to obtain insurance policies for property that provide full coverage on various types of disasters, such as terrorist attacks, natural disasters and war. There are also other factors that may affect the chances of getting sufficient insurance compensation to make the Group whole following damage to insured properties, for example inflation, tax, changes in construction regulations and environmental concerns. The actual losses suffered by the Group could be material and exceed its insurance coverage, which could have a material adverse effect on the relevant Issuer's business, financial condition and results of operations.

Interests of the relevant Issuer's or, if applicable, the Guarantor's shareholders may conflict with those of the Holders of the Notes

The interests of the relevant Issuer's or, if applicable, the Guarantor's shareholders, in certain circumstances, may conflict with those of the Holders, particularly if the relevant Issuer encounters financial difficulties or is unable to pay its debts when due. In addition, the relevant Issuer's or, if applicable, the Guarantor's shareholders may have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, even though such transactions might involve risks to the Holders. Any of these actions could have an adverse effect on the relevant Issuer's or, if applicable, the Guarantor's business, financial condition, results of operations and future prospects.

Financial Risks

The Group may not receive financing at competitive terms or at all and may fail in repaying/refinancing its existing debt

Uncertainty in the financial markets or tightening regulation of banks could mean that the price of financing needed to carry out the Group's business, in particular its growth strategy (see "*Description of Heimstaden Bostad – Goals and Strategy*"), will increase and that such financing will be less readily available. As a result of the Group's intentions to raise additional debt from the capital markets, the Group is exposed to future adverse changes in those markets. The level of the Group's leverage may also affect its ability to refinance its existing debt, which, in turn, could also affect its competitiveness and limit its ability to react to market conditions and economic downturns.

The Group's target equity ratio is at least 30% calculated on the basis of its total assets. From the unaudited figures, as at 30 June 2021, the Group's equity ratio was 53.9% based on total assets.

The Group conducts continual discussions with banks and credit institutions aimed at securing its long-term financing. The Group cooperates closely with a handful of lenders in order to secure its long-term capital requirements. However, no assurance can be given that the Group may not have difficulty in raising new debt, repaying its existing debt or fulfilling its equity ratio target in the future. Any failure to repay the principal or pay interest in respect of the Group's existing debt, the inability to refinance existing debt, or to raise new debt at corresponding or more favourable financial and other terms than currently in force, could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Risks posed by the Group's financing model

The Group is financed through equity and interest-bearing debt as well as its cashflows. A large part of the Group's interest-bearing debt is borrowed or issued by the Group's subsidiaries, which means that the financial risks in the Group are to a large extent attributable to its subsidiaries. A large part of such long-term financing on the subsidiary level consists of bilateral credit facilities. There are certain obligations under such credit facilities on maintaining, for example, certain interest cover ratios and certain loan to value ratios. This means that the creditors of the subsidiaries could be entitled to demand repayment in advance of the creditors of the relevant Issuer or, if applicable, the Guarantor, if the relevant Group subsidiaries do not fulfil such obligations. If such a demand is made, it could adversely affect the relevant Issuer's or, if applicable, the Guarantor's financial position. For further information see "*Description of Heimstaden Bostad – Finance and Capital Structure – Funding Strategy*".

A minor portion of the Group's interest bearing debt is in the form of commercial paper, which in contrast to the Group's long term debt would be the first to face liquidity constraints in times of economic turmoil, which could result in there being no market for the Group to issue new commercial paper. If the market for commercial paper is negatively impacted and this coincides with insufficient liquidity in the banking sector to honour its back-up liquidity facilities commitments, the Group may not be able to refinance when due on acceptable terms, or at all.

The Group is dependent on Heimstaden Bostad's long-term credit rating to pursue its financing strategy

As part of its strategy to increase presence on the international capital markets in the future through the issuance of unsecured bonds and notes, Heimstaden Bostad has sought and received a long-term rating of BBB (outlook stable) from S&P. If Heimstaden Bostad's long-term credit rating were to be downgraded, future issuances of unsecured bonds and notes by the Group may become significantly more expensive or may not be possible in the targeted amounts. S&P could downgrade Heimstaden Bostad's long-term credit rating if, for example, Heimstaden Bostad's secured leverage (secured debt divided by total assets) were to exceed certain levels, or Heimstaden Bostad's effective leverage (adjusted total debt divided by total assets) or fixed charge cover ratios were to exceed certain levels, both on a sustainable basis, or Heimstaden Bostad was unable to maintain an adequate liquidity profile at all times. If any of the risks described above were to materialise, it would be more difficult for the Group to pursue its current financing strategy, which could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

The Group's financings/insurance arrangements involve counterparty risk

Financial institutions are counterparties to the Group's long-term bank loans and insurance arrangements. During the financial crisis starting in 2007-2008, many banks and insurance companies in the United States and Europe experienced financial difficulties, resulting in numerous mergers, acquisitions and bankruptcies among financial institutions, including government takeovers of certain financial institutions. The Group's principal counterparties in financing transactions are financial institutions which have avoided serious financial problems. However, there is no assurance that the Group's financing or insurance counterparties will not experience any financial difficulties in the future. If the Group's counterparties were to experience financial difficulties it could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects. A prolongation of the outbreak of Covid-19 would accentuate this risk.

Fluctuations in interest rates may adversely affect the Group's business

Interest costs are one of the Group's largest cost items. Interest rate fluctuations affect the Group's profits through changes in interest expenses and the market values of interest rate hedging. From the unaudited

figures, as at 30 June 2021, approximately 78% of the Group's loans were fixed interest rate loans or floating rate loans hedged with interest rate derivatives. Further, fluctuations in interest rates may affect the Group's rental apartment business and the valuation of its properties. Although a significant increase in interest rates may considerably affect house owners' ability to pay interest on housing loans, it may also affect private consumption and decrease the value of properties. In addition, an increase in the interest rates could have a material adverse effect on the cost of financing and the Group's current financing expenses.

The Group uses interest rate derivatives to manage the interest rate risk relating to its floating interest rates risk, but may fail in managing its interest rate risk properly. The interest rate derivatives are reported at fair value in the balance sheet and with changes in value in the profit and loss account. As the market interest rates change, a theoretical over or under value on the interest rate derivatives can occur, however, this does not affect the cash flow. At the end of the term, the value of the derivatives is always zero. The derivative constitutes a hedging against higher interest rates, but it also means that the market value of the Issuer's interest rate derivatives decreases if the market interest rates decrease, which in turn has a negative impact on the Issuer's financial condition and results of operations. In the event a negative value of a derivative is realised it will have a negative effect on the liquidity of the Issuer.

Materialisation of any of the above risks could have a material adverse effect on the Group's business, financial condition, results of operations and future prospects.

Fluctuations in currency exchange rates may adversely affect the Group's profit and property value

Heimstaden Bostad and the Group are each, respectively, exposed to indirect foreign exchange translation risk due to its investment in countries outside Sweden.

The currency rate risk arises primarily when the balance sheets of non-Swedish subsidiaries of the Group are consolidated in the Group's balance sheet. The Group reports in SEK and all items in the balance sheet that are not denominated in SEK (including items for non-Swedish properties as well as all income and expenses generated by them and liabilities in currencies other than SEK) are converted to SEK. The Group uses cross-currency swaps to manage foreign exchange risks resulting from its issuances of securities denominated in EUR. Thus, when converting foreign items to SEK, a currency rate risk could arise. Should these risks develop negatively, it could have a material adverse effect on the Group's financial position, earnings and future prospects.

HBT is a special purpose vehicle and investors should therefore consider the financial condition and liquidity of Heimstaden Bostad and the Group in addition to that of the HBT

The principal activities of HBT are the issuance of euro-denominated financial instruments and intra-group arrangements with other members of the Group to on-lend the proceeds of the issuance of financial instruments.

Accordingly, HBT's ability to pay interest and repay principal in respect of its borrowings, including the Notes issued by it, depends upon the financial condition and liquidity of Heimstaden Bostad and the Group. Notes issued by HBT will be unconditionally and irrevocably guaranteed by Heimstaden Bostad. The Group further intends to provide HBT with liquidity by way of intra-group arrangements or other transfers of value in order for the HBT to fulfil its obligations under the Notes issued by it. However, if the Group does not provide liquidity, or due to other circumstances, conditions, laws or regulations is prevented from providing liquidity to the HBT, there is a risk that the HBT will not fulfil its obligations under the Notes. Therefore, investors in Notes issued by the HBT should consider the risk factors, financial condition and liquidity of Heimstaden Bostad and the Group in addition to that of the HBT.

FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH NOTES ISSUED UNDER THE PROGRAMME

Risks related to the structure of a particular issue of Notes

A range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

If the relevant Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

An optional redemption feature is likely to limit the market value of Notes. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notes may be subject to redemption upon the occurrence of a Special Redemption Event.

The use of proceeds of certain Notes issued under the Programme may be used to finance the acquisition of an Acquisition Target specified in the applicable Final Terms. Condition 7.5 (*Redemption upon the occurrence of a Special Redemption Event (Special Redemption Event Call)*) includes a redemption feature which, if selected as applicable in the Final Terms for a Series of Notes, will allow such Notes to be redeemed by the relevant Issuer (on either an optional or mandatory basis, as specified in the applicable Final Terms) upon the occurrence of a Special Redemption Event (namely that Heimstaden Bostad: (i) has not completed and closed the acquisition of the Acquisition Target by the Special Redemption Longstop Date; or (ii) has published an announcement that it no longer intends to pursue the acquisition of the Acquisition Target, as further described in Condition 7.5 (*Redemption upon the occurrence of a Special Redemption Event (Special Redemption Event Call)*) and the applicable Final Terms).

If the Notes are redeemed following the occurrence of a Special Redemption Event, Noteholders may not obtain their expected return on such Notes and may not be able to reinvest the proceeds of such redemption in an investment that results in a comparable return.

If a Special Redemption Event does not occur then Noteholders shall not have any right to require the redemption of their Notes and nor will any such right arise if, between the issue date of the Notes and the acquisition of the Acquisition Target, the Group or the Acquisition Target experiences any changes in its business or financial condition or if the terms of the acquisition of the Acquisition Target change. Whether or not the special redemption provision is ultimately triggered, it may adversely affect trading prices during the Special Optional Redemption Period for the Notes that include a Special Redemption Event Call.

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks", (including the Copenhagen Interbank Offered Rate ("CIBOR"), the Euro Interbank Offered Rate ("EURIBOR"), the London Interbank Offered Rate ("LIBOR"), the Norwegian Interbank Offered Rate ("NIBOR") and the Stockholm Interbank Offered Rate ("STIBOR")) are the subject of recent national, international and other regulatory guidance and proposals for reform. These reforms may cause such benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

The EU Benchmarks Regulation applies, subject to certain transitional provisions to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

Regulation (EU) 2016/1011 as it forms part of domestic law of the UK by virtue of the EUWA (the "**UK Benchmarks Regulation**") among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of

administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. The FCA has indicated through a series of announcements that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. On 5 March 2021, ICE Benchmark Administration Limited ("**IBA**"), the administrator of LIBOR, published a statement confirming its intention to cease publication of all LIBOR settings, together with the dates on which this will occur, subject to the FCA exercising its powers to require IBA to continue publishing such LIBOR settings using a changed methodology (the "**IBA announcement**"). Concurrently, the FCA published a statement on the future cessation and loss of representativeness of all LIBOR currencies and tenors, following the dates on which IBA has indicated it will cease publication (the "**FCA announcement**"). Permanent cessation will occur immediately after 31 December 2021 for all Euro and Swiss Franc LIBOR tenors and certain Sterling, Japanese Yen and US Dollar LIBOR settings and immediately after 30 June 2023 for certain other USD LIBOR settings. In relation to the remaining LIBOR settings (1-month, 3-month and 6-month Sterling, US Dollar and Japanese Yen LIBOR settings), the FCA will consult on, or continue to consider the case for, using its powers require IBA to continue their publication under a changed methodology for a further period after end-2021 (end-June 2023 in the case of US Dollar LIBOR). The FCA announcement states that consequently, these LIBOR settings will no longer be representative of the underlying market that such settings are intended to measure immediately after 31 December 2021, in the case of the Sterling and Japanese Yen LIBOR settings and immediately after 30 June 2023, in the case of the USD LIBOR settings. Any continued publication of the Japanese Yen LIBOR settings will also cease permanently at the end of 2022.

Separately, the euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, among other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

Such factors may have (without limitation) the following effects on certain benchmarks (including CIBOR, EURIBOR, LIBOR, NIBOR and STIBOR): (i) discouraging market participants from continuing to administer or contribute to such benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing or otherwise dependent (in whole or in part) upon a benchmark.

The Terms and Conditions of Notes and the Agency Agreement provide for certain fallback arrangements in the event that an Original Reference Rate and/or any screen page on which an Original Reference Rate may be published (or any other successor page) becomes unavailable or a Benchmark Event (as defined in the Terms and Conditions) otherwise occurs. The IBA announcement and FCA announcement referred to above may each constitute such a Benchmark Event. Such fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate (both as defined in the Terms and Conditions), with or without the application of an Adjustment Spread and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or alternative benchmark, all as determined by an Independent Advisor (acting in good faith). The use of a Successor Rate or Alternative Rate (with the application of an Adjustment Spread) will still result in any

Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Rate or (in either case) Adjustment Spread is determined, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applies to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period). This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser and the potential for further regulatory developments, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, or any of the international or national reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

In respect of any Notes issued with a specific use of proceeds, such as a Green Bond, there can be no assurance that such use of proceeds will be suitable for the investment criteria of an investor

The Final Terms relating to any specific Tranche of Notes may provide that it will be the relevant Issuer's intention to apply an amount equal to the proceeds from an offer of those Notes specifically for projects and activities that promote climate-friendly and/or other environmental purposes, in accordance with Heimstaden Bostad's Green Bond Framework (as defined in "Use of Proceeds" below). Prospective investors should have regard to the information in the relevant Final Terms regarding such use of proceeds and in "Use of Proceeds" below and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the relevant Issuer or any Dealer that the use of such proceeds for any Green Projects (as defined in "Use of Proceeds" below) will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own articles of association or other governing rules or investment mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, the Green Bond Framework) (including Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the so called EU Taxonomy) or Regulation (EU) 2020/852 as it forms part of domestic law of the UK by virtue of EUWA). Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Green Projects will meet any or all investor expectations regarding such "green", "sustainable", or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects. Each prospective investor should have regard to the factors described in the Green Bond Framework and seek advice from their independent financial adviser or other professional adviser as to the relevance of the information contained in this Base Prospectus regarding the use of proceeds and its purchase of the Notes before deciding to invest.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the relevant Issuer or any other member of the Group and including the Second-Party Opinion (as defined in "Use of Proceeds" below)) which may be made available in connection with the issue of any Notes and in particular with any Green Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the relevant Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or

certification is only current as of the date that such opinion or certification was initially issued. As at the date of this Base Prospectus, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainable", "social", or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the relevant Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own articles of association or other governing rules or investment mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the relevant Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the relevant Issuer to apply an amount equal to the proceeds of any Notes so specified for Green Projects in, or substantially in, the manner described in this Base Prospectus and/or the relevant Final Terms and to report on the use of proceeds or Green Projects as described in the Green Bond Framework, there is no contractual obligation to do so. There can be no assurance that the relevant intended project(s) or use(s) the subject of, or related to, any Green Projects will be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for the specified Green Projects. Nor can there be any assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the relevant Issuer. Any such event or failure by the relevant Issuer or a failure by the relevant Issuer to allocate an amount equal to the proceeds of any Notes issued as Green Bonds or to report on the use of proceeds or Green Projects as anticipated or a failure of a third party to issue (or to withdraw) an opinion or certification in connection with an issue of Green Bonds will not constitute an Event of Default under the Notes.

Any such event or failure to apply an amount equal to the proceeds of any issue of Notes for any Green Projects as aforesaid and/or to report on the use of proceeds or Green Project as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the relevant Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned.

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

Risks related to Notes generally

Set out below is a description of certain material risks relating to the Notes generally:

The claims of holders of the Notes are structurally subordinated

As is usual for property companies, the Group's operations are principally conducted through subsidiaries. Accordingly, Heimstaden Bostad is, and will be, dependent on its subsidiaries' operations to service its payment obligations in respect of the Notes and the Guarantee (if applicable). Moreover, HBT is a special purpose financing vehicle that was formed for the purpose of raising debt for the Group. For more information see "*Risk Factors – HBT is a special purpose vehicle and investors should therefore consider the financial condition and liquidity of Heimstaden Bostad and the Group in addition to that of the HBT*" and "*Risk Factors – Heimstaden Bostad is a holding company; it is reliant on dividend and group contribution upstreaming*".

The Notes issued by Heimstaden Bostad and the Guarantee (if applicable) are structurally subordinated to the claims of all holders of debt securities and other creditors, including trade creditors, of Heimstaden Bostad's subsidiaries, and structurally and/or effectively subordinated to the extent of the value of collateral to all Heimstaden Bostad's and its subsidiaries' secured creditors. The Notes issued by Heimstaden Bostad will not be guaranteed by any of Heimstaden Bostad's subsidiaries or any other company or person. In the event of an insolvency, bankruptcy, liquidation, reorganisation, dissolution or winding up of the business of any of Heimstaden Bostad's subsidiaries, unsecured creditors of such subsidiaries, secured creditors and obligations that may be preferred by provisions of law that are mandatory and of general application will generally have the right to be paid in full before any distribution is made to Heimstaden Bostad. From the unaudited figures, as at 30 June 2021, the book value of interest-bearing debt of the Group was SEK 82,949 million.

The Notes and the Guarantee (if applicable) will be effectively subordinated to any of the relevant Issuer's or, as the case may be, the Guarantor's existing secured and future secured indebtedness

The Notes are unsecured obligations of the Issuers and the Guarantee is unsecured obligation of the Guarantor (if applicable). The Notes and the Guarantee (if applicable) are, therefore, effectively subordinated to the relevant Issuer's or, as the case may be, the Guarantor's existing secured indebtedness and future secured indebtedness. Accordingly, holders of the relevant Issuer's or the Guarantor's secured indebtedness will have claims that are superior to the claims of Noteholders to the extent of the value of the assets securing such other indebtedness. In the event of a bankruptcy, liquidation or dissolution of any of the relevant Issuer or, as the case may be, the Guarantor, the assets that serve as collateral for any secured indebtedness of the relevant Issuer or the Guarantor would be available to satisfy the obligations under the secured indebtedness before any payments are made on the Notes or the Guarantee, as applicable. Other than as set out in Condition 4.1 (*Negative Pledge*) Condition 4.2(a) (*Limitations on the Incurrence of Financial Indebtedness*) and Condition 4.2(c) (*Limitations on the Incurrence of Secured Indebtedness*), the Conditions do not prohibit the Issuers or, as the case may be, the Guarantor from incurring and securing future indebtedness. To the extent that the Issuers or, as the case may be, the Guarantor were to secure any of its future indebtedness, to the extent not required to secure the Notes or the Guarantee (as applicable) in accordance with the terms of the Trust Deed governing the Notes and the Guarantee, the relevant Issuer's obligations, in respect of the Notes, and the Guarantor's obligations, in respect of the Guarantee, would be effectively subordinated to such secured indebtedness to the extent of the value of the security securing such indebtedness.

The conditions of the Notes contain provisions which may permit their modification without the consent of all investors and confer significant discretions on the Trustee, which may be exercised without the consent of the Noteholders and without regard to the individual interests of particular Noteholders.

The Terms and Conditions of the Notes contain provisions for calling meetings (including by way of conference call or by use of a video conference platform) of Noteholders to consider and vote upon matters affecting their interests generally, or to pass resolutions in writing or through the use of electronic consents. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting or, as the case may be, did not sign the written resolution or give their consent electronically, and including those Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Trustee may, without the consent of Noteholders and without regard to the interests of particular Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such or (iii) the substitution of another company as principal debtor under any Notes in place of the relevant Issuer, in the circumstances described in Condition 15 (*Substitution*).

The value of the Notes could be adversely affected by a change in English law or administrative practice.

The Terms and Conditions of the Notes and any non-contractual obligations arising out of or in connection with such Notes are governed by English law, except that the registration of VPS Notes in Euronext VPS as well as the recording and transfer of ownership to, and other interests in, VPS Notes are governed by Norwegian law, each in effect as at the date of this Base Prospectus

No assurance can be given as to the impact of any possible judicial decision or change to English law, Norwegian law or administrative practice in either jurisdiction after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued.

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Enforceability of judgments

The UK left the EU on 31 January 2020. Negotiations are ongoing to determine the future terms of the UK's relationship with the EU, including the terms of trade between the UK and the EU.

Each Issuer has submitted to the jurisdiction of the courts of England in the conditions of the Notes. As at the date of this Base Prospectus, and since the end of the transition period of the UK's withdrawal from the EU, a final judgment in civil or commercial matters obtained in the courts of England, against Heimstaden Bostad, which is enforceable in the UK, will, in principle, neither be recognised nor enforceable in Sweden and the Noteholders would be required to re-litigate in the courts of Sweden. However, if any Noteholder brings a new action in a competent court in Sweden, the final judgment rendered in an English court may

be submitted to the Swedish court, but will only be regarded as evidence of the outcome of the dispute to which it relates, and the Swedish court has full discretion to rehear the dispute *ab initio*.

Risks related to the market generally

Set out below is a description of material market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell their Notes.

Notes may have no established trading market when issued, and one may never develop. If a market for the Notes does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. **Credit ratings assigned to the relevant Issuer or any Notes may not reflect all the risks associated with an investment in those Notes.**

One or more independent credit rating agencies may assign credit ratings to the relevant Issuer or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Notes changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment, which may impact the value of the Notes and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

If an investor holds Notes which are not denominated in the investor's home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes.

The relevant Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include

the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the relevant Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates.

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

The Issuers and the Guarantor will, in the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus which may affect the assessment of any Notes, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Notes.

Following the publication of this Base Prospectus a supplement may be prepared by the Issuers and the Guarantor and approved by the CBI in accordance with Article 23 of the Prospectus Regulation. It should be noted that, except as set forth above, no other portion of the above documents is incorporated by reference into this Base Prospectus. In addition, where sections of any of the above documents which are incorporated by reference into this Base Prospectus cross-reference other sections of the same document, such cross-referenced information shall not form part of this Base Prospectus, unless otherwise incorporated by reference herein. Those parts of the documents incorporated by reference which are not specifically incorporated by reference in this Base Prospectus are either not relevant for prospective investors or the information is included elsewhere in this Base Prospectus.

FORM OF THE NOTES

The Notes of each Series will be in bearer form, with or without interest coupons attached, or registered form, without interest coupons attached or, in the case of VPS Notes, uncertificated book entry form. Notes will be issued outside the United States in reliance on Regulation S under the Securities Act ("**Regulation S**").

Bearer Notes

Each Tranche of Bearer Notes will be in bearer form and will initially be issued in the form of a temporary global note (a "**Temporary Bearer Global Note**") or, if so specified in the applicable Final Terms, a permanent global note (a "**Permanent Bearer Global Note**" and, together with a Temporary Bearer Global Note, each a "**Bearer Global Note**") which, in either case, will:

- (a) if the Bearer Global Notes are intended to be issued in new global note ("**NGN**") form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the "**Common Safekeeper**") for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking S.A. ("**Clearstream, Luxembourg**"); and
- (b) if the Bearer Global Notes are not intended to be issued in NGN Form, be delivered on or prior to the original issue date of the Tranche to a common depositary (the "**Common Depositary**") for Euroclear and Clearstream, Luxembourg.

Where the Bearer Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether such Bearer Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Bearer Global Notes are to be so held does not necessarily mean that the Bearer Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Note if the Temporary Bearer Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in the Temporary Bearer Global Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the "**Exchange Date**") which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Note of the same Series or (ii) for definitive Bearer Notes of the same Series with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given, **provided that** purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Bearer Global Note if the Permanent Bearer Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default (as defined in Condition 10 (*Events of Default and Enforcement*))) has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Trustee is available or (iii) the relevant Issuer or the Guarantor (as appropriate) has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form and a certificate to such effect signed by two Directors of the relevant Issuer or the Guarantor (as applicable) is given to the Trustee. The relevant Issuer, or as appropriate, the Guarantor, will promptly give notice to Noteholders in accordance with Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) or the Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer, or as appropriate, the Guarantor, may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes (other than Temporary Bearer Global Notes) and interest coupons relating to such Notes where TEFRA D is specified in the applicable Final Terms:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Bearer Notes or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

The Registered Notes of each Tranche will initially be represented by a global note in registered form (a "**Registered Global Note**").

Registered Global Notes will be deposited with a common depositary or, if the Registered Global Notes are to be held under the new safe-keeping structure (the "NSS"), a common safekeeper, as the case may be for Euroclear and Clearstream, Luxembourg, and registered in the name of the nominee for the Common Depositary of, Euroclear and Clearstream, Luxembourg or in the name of a nominee of the common safekeeper, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Where the Registered Global Notes issued in respect of any Tranche is intended to be held under the NSS, the applicable Final Terms will indicate whether or not such Registered Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Registered Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The common safekeeper for a Registered Global Note held under the NSS will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition

6.4 (*Payments in respect of Registered Notes*)) as the registered holder of the Registered Global Notes. None of the relevant Issuer, the Guarantor, any Paying Agent, the Trustee or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 6.4 (*Payments in respect of Registered Notes*)) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system satisfactory to the Trustee is available or (iii) the relevant Issuer or the Guarantor (as applicable) has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form and a certificate to that effect signed by two Directors of the relevant Issuer or the Guarantor (as applicable) is given to the Trustee. The relevant Issuer, or as appropriate, the Guarantor will promptly give notice to Noteholders in accordance with Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg or any person acting on their behalf (acting on the instructions of any holder of an interest in such Registered Global Note) or the Trustee may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer, or as appropriate, the Guarantor, may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, in each case to the extent applicable.

VPS Notes

Each Tranche of VPS Notes will be issued in uncertificated and dematerialised book entry form. Legal title to the VPS Notes will be evidenced by book entries in the records of Euronext VPS. On the issue of such VPS Notes, Heimstaden Bostad will send a letter to the Trustee, the Agent and the VPS Agent (the "**VPS Letter**"), which letter will set out the terms of the relevant issue of VPS Notes in the form of a Final Terms attached thereto. On delivery of a copy of such VPS Letter including the relevant Final Terms to Euronext VPS and notification to Euronext VPS of the subscribers and their VPS account details by the relevant Dealer, the VPS Agent will credit each subscribing account holder with Euronext VPS with a nominal amount of VPS Notes equal to the nominal amount thereof for which it has subscribed and paid.

Settlement of sale and purchase transactions in respect of VPS Notes in Euronext VPS will take place two Oslo business days after the date of the relevant transaction. Transfers of interests in the relevant VPS Notes will only take place in accordance with the rules and procedures for the time being of Euronext VPS.

VPS Notes may not be exchanged for Notes in bearer or registered form and *vice versa*.

The VPS Notes must comply with the Norwegian Central Securities Depositories Act of 15 March 2019 no. 6 which implements Regulation (EU) No. 909/2014 into Norwegian law, and, to the extent applicable, the Norwegian Securities Register Act of 5 July 2002 no. 64, as amended from time to time, and the holders of VPS Notes will be entitled to the rights and subject to the obligations and liabilities which arise under this act and any related regulations and legislation.

The registration of VPS Notes in Euronext VPS as well as the recording and transfer of ownership to, and other interests in, VPS Notes will be governed by, and construed in accordance with, Norwegian law.

General

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Notes*"), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or Euronext VPS shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

No Noteholder or Couponholder shall be entitled to proceed directly against the relevant Issuer and/or the Guarantor unless the Trustee, having become bound so to proceed, fails or is unable to do so within 60 days, and the failure or inability shall be continuing.

The relevant Issuer and the Guarantor (as applicable) may agree with any Dealer and the Trustee, as applicable, that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event a new Base Prospectus will be made available which will describe the effect of the agreement reached in relation to such Notes.

5. **INTEREST**

5.1 **Interest on Fixed Rate Notes**

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, "**Fixed Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are (i) represented by a Global Note or (ii) Registered Notes in definitive form, the aggregate outstanding nominal amount of (A) the Fixed Rate Notes represented by such Global Note or (B) such Registered Notes; or
- (b) in the case of Fixed Rate Notes which are Bearer Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction.

The resultant figure (including after application of any Fixed Coupon Amount or Broken Amount, as applicable, to the aggregate outstanding nominal amount of Fixed Rate Notes which are Registered Notes in definitive form or the Calculation Amount in the case of Fixed Rate Notes which are Bearer Notes in definitive form) shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note which is a Bearer Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In these Conditions:

"Day Count Fraction" means, in respect of the calculation of an amount of interest, in accordance with this Condition 5.1:

- (i) if **"Actual/Actual (ICMA)"** is specified in the applicable Final Terms:
 - (A) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **"Accrual Period"**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (B) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (ii) if **"30/360"** is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first

Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"**sub-unit**" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

5.2 **Interest on Floating Rate Notes**

(a) ***Interest Payment Dates***

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an "**Interest Payment Date**") which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, "**Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date or the relevant payment date if the Notes become payable on a date other than an Interest Payment Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 5.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, "**Business Day**" means:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre (other than TARGET2 System) specified in the applicable Final Terms;

- (b) if TARGET2 System is specified as an Additional Business Centre in the applicable Final Terms, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the "**TARGET2 System**") is open; and
- (c) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

(b) **Rate of Interest**

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(i) *ISDA Determination for Floating Rate Notes*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will (subject to Condition 5.2(e) below) be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (i), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent or, in the case of VPS Notes, the Calculation Agent, under an interest rate swap transaction if also acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes and, if specified in the applicable Final Terms, as supplemented by the ISDA Benchmarks Supplement (the "**ISDA Definitions**") and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is the day specified in the applicable Final Terms.

For the purposes of this subparagraph (i), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

For the purposes of this subparagraph (i), "**ISDA Benchmarks Supplement**" means the Benchmarks Supplement (as amended and updated as at the date of issue of the first Tranche of the Notes of the relevant Series (as specified in the applicable Final Terms)) published by the International Swaps and Derivatives Association, Inc.

Unless otherwise stated in the applicable Final Terms the Minimum Rate of Interest shall be deemed to be zero.

(ii) *Screen Rate Determination for Floating Rate Notes*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or

- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR, EURIBOR, CIBOR, STIBOR or NIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (London time, in the case of LIBOR, Brussels time, in the case of EURIBOR, Copenhagen time, in the case of CIBOR or Stockholm time, in the case of STIBOR) or 12.00 noon (Oslo time, in the case of NIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent or, in the case of VPS Notes, the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

(c) ***Minimum Rate of Interest and/or Maximum Rate of Interest***

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(d) ***Determination of Rate of Interest and calculation of Interest Amounts***

The Principal Paying Agent, in the case of Floating Rate Notes which are not VPS Notes, and the Calculation Agent, in the case of Floating Rate Notes which are VPS Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Principal Paying Agent or, in the case of Floating Rate Notes which are VPS Notes, the Calculation Agent, will calculate the amount of interest (the "**Interest Amount**") payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes which are (i) represented by a Global Note or (ii) Registered Notes in definitive form, the aggregate outstanding nominal amount of (A) the Notes represented by such Global Note or (B) such Registered Notes; or
- (ii) in the case of Floating Rate Notes which are Bearer Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with

applicable market convention. Where the Specified Denomination of a Floating Rate Notes which is a Bearer Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest in accordance with this Condition 5.2:

- (i) if "**Actual/Actual (ISDA)**" or "Actual/Actual" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if "**Actual/365 (Fixed)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (iii) if "**Actual/365 (Sterling)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if "**Actual/360**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (v) if "**30/360**", "**360/360**" or "**Bond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (vi) if "**30E/360**" or "**Eurobond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30;

- (vii) if "**30E/360 (ISDA)**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(e) ***Linear Interpolation***

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent or, in the case of VPS Notes, the Calculation Agent, by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than

the length of the relevant Interest Period **provided however that** if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent or, in the case of VPS Notes, the Calculation Agent, shall determine such rate at such time and by reference to such sources as it determines appropriate.

"**Designated Maturity**" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(f) ***Benchmark Replacement***

Notwithstanding the operation of the provisions above in this Condition 5.2, if the relevant Issuer, in consultation with the party responsible for determining the Rate of Interest (being the Calculation Agent or such other party specified in the applicable Final Terms, as applicable), determines that a Benchmark Event has occurred in relation to the Original Reference Rate at any time when the Conditions provide for any Rate of Interest (or any component part thereof) to be determined by reference to such Original Reference Rate, then the following provisions shall apply.

(i) ***Independent Advisor***

The relevant Issuer shall use reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine (acting in good faith) a Successor Rate, failing which an Alternative Rate and, in either case, an Adjustment Spread and any Benchmark Amendments (each as defined and as further described below) no later than 5 Business Days prior to the Interest Determination Date relating to the next succeeding Interest Period (the "IA Determination Cut-off Date") for the purposes of determining the Rate of Interest applicable to the Notes for such next succeeding Interest Period and for all future Interest Periods (subject to the subsequent operation of this Condition 5.2(f) during any other future Interest Period(s)).

(ii) ***Successor Rate or Alternative Rate***

If the Independent Adviser (acting in good faith) determines that:

(A) there is a Successor Rate, then such Successor Rate (as adjusted by the applicable Adjustment Spread as provided in Condition 5.2(f)(iii)) shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent further operation of this Condition 5.2(f)); or

(B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate (as adjusted by the applicable Adjustment Spread as provided in Condition 5.2(f)(iii)) shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent further operation of this Condition 5.2(f)).

(iii) ***Adjustment Spread***

If a Successor Rate or Alternative Rate is determined in accordance with Condition 5.2(f)(ii), the Independent Adviser acting in good faith shall determine an Adjustment Spread (which may be expressed as a specified quantum or a formula or methodology for determining the applicable Adjustment Spread (and, for the avoidance of doubt, an Adjustment Spread may be positive, negative or zero)), which Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be for each subsequent determination of a relevant Rate of Interest (or a relevant component part thereof) by reference to

such Successor Rate or Alternative Rate (as applicable)), subject to the subsequent further operation and adjustment as provided in this Condition 5.2(f).

(iv) *Benchmark Amendments*

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 5.2(f) and the Independent Adviser (acting in good faith) determines (i) that amendments to these Conditions, the Trust Deed and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (provided that such amendments do not, without the consent of the party responsible for determining the Rate of Interest (being the Calculation Agent or such other party specified in the applicable Final Terms, as applicable) impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to it) (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the relevant Issuer shall, subject to giving notice thereof in accordance with Condition 5.2(f)(v), without any requirement for the consent or approval of Noteholders or Couponholders, vary these Conditions, the Trust Deed and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, the Trustee and Principal Paying Agent shall, at the request and expense of the relevant Issuer, agree to use their reasonable endeavours to effect such consequential amendments to the Trust Deed, the Agency Agreement and these Conditions, including, inter alia, by execution of a deed supplemental to the Trust Deed, as the relevant Issuer determines and certifies to the Trustee and the Principal Paying Agent may be required in order to give effect to this Condition 5.2(f) and neither the Trustee nor the Principal Paying Agent shall be liable to any party for any consequence thereof provided, however, that neither the Trustee nor the Principal Paying Agent (as applicable) shall be obliged to agree to any such consequential amendments if the same would, in the sole opinion of the Trustee or the Principal Paying Agent (as applicable), expose it to any additional liabilities or increase the obligations or duties or reduce or amend its rights and/or the protective provisions afforded to it in the Trust Deed and/or these Conditions and/or the Agency Agreement (as applicable).

In connection with any such variation in accordance with this Condition 5.2(f)(iv), the relevant Issuer shall comply with the rules of any stock exchange or other relevant authority on or by which the Notes are for the time being listed or admitted to trading.

(v) *Notices, etc.*

The relevant Issuer shall no later than the IA Determination Cut-off Date notify the party responsible for determining the Rate of Interest (being the Calculation Agent or such other party specified in the applicable Final Terms, as applicable), the Trustee, the Principal Paying Agent, the Paying Agents and promptly thereafter notify, in accordance with Condition 14 (*Notices*), the Noteholders of any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments determined under this Condition 5.2(f). Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any. No later than notifying the Trustee and the Principal Paying Agent of the same, the relevant Issuer shall deliver to the Trustee a certificate signed by an Authorised Signatory of the relevant Issuer confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or Alternative Rate (as applicable), (iii) any Adjustment Spread and (iv) where applicable, the terms of any changes pursuant to sub-paragraph (iv) above and certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread. The Trustee and the Principal Paying Agent shall be entitled to rely on such certificate (without

enquiry or liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Trustee's and the Principal Paying Agent's ability to rely on such certificate as aforesaid) be binding on the relevant Issuer, the Trustee, the Principal Paying Agent, the Calculation Agent, the Paying Agents and the Noteholders.

(vi) *Survival of Original Reference Rate*

Without prejudice to the obligations of the relevant Issuer under this Condition 5.2(f), the Original Reference Rate and the fallback provisions provided for in Condition 5.2(b)(ii) will continue to apply unless and until the party responsible for determining the Rate of Interest (being the Calculation Agent or such other party specified in the applicable Final Terms, as applicable) has been notified of the Successor Rate or the Alternative Rate (as the case may be), the applicable Adjustment Spread and Benchmark Amendments (if applicable), in accordance with Condition 5.2(f)(v).

(vii) *Fallbacks*

If, following the occurrence of a Benchmark Event and in relation to the determination of the Rate of Interest on the immediately following Interest Determination Date, the relevant Issuer is unable to appoint an Independent Adviser or no Successor Rate or Alternative Rate (as applicable) is determined pursuant to this Condition 5.2(f) prior to the IA Determination Cut-off Date and the Relevant Screen Page is no longer available for use, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period).

For the avoidance of doubt, this Condition 5.2(f) shall apply to the determination of the Rate of Interest on the relevant Interest Determination Date only, and the Rate of Interest applicable to any subsequent Interest Period(s) is subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(f).

For the purposes of this Condition 5.2(f):

"**Adjustment Spread**" means either a spread (which may be positive, negative or zero), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser (acting in good faith) determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body;
- (B) (if no such recommendation or option has been made (or made available), or in the case of an Alternative Rate) the Independent Adviser (acting in good faith) determines is recognised or acknowledged as being in customary usage in international debt capital markets transactions which

reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be);

- (C) (if no such determination has been made) the Independent Adviser (acting in good faith) determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or
- (D) (if no such industry standard is recognised or acknowledged) the Independent Adviser (acting in good faith) determines to be appropriate to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the case may be);

"Alternative Rate" means an alternative to the Original Reference Rate which the Independent Adviser (acting in good faith) determines in accordance with Condition 5.2(f)(ii) has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same Specified Currency as the Notes or, if the Independent Adviser determines there is no such rate, such other rate as the Independent Adviser (acting in good faith) determines is most comparable to the Original Reference Rate;

"Benchmark Amendments" has the meaning given to it in Condition 5.2(f)(iv);

"Benchmark Event" means:

- (A) the Original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing permanently to be calculated, administered and published;
- (B) the later of (i) the making of a public statement by the administrator of the Original Reference Rate that it will, on or before a specified date, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate) and (ii) the date falling six months prior to the date specified in (i) above;
- (C) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been permanently or indefinitely discontinued;
- (D) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (ii) the date falling six months prior to the date specified in (i) above;
- (E) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that means the Original Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case on or before a specified date and (ii) the date falling six months prior to the specified date referred to in (i) above;
- (F) it has or will prior to the next Interest Determination Date become unlawful for the Calculation Agent, the relevant Issuer or any other party to calculate any payments due to be made to any Noteholder or

Couponholder using the Original Reference Rate (including, without limitation, under the Benchmarks Regulation (EU) 2016/1011, if applicable); or

- (G) the later of (i) the making of a public statement by the supervisor of the administrator of such Original Reference Rate announcing that such Original Reference Rate is or will, on or before a specified date, be no longer representative and (ii) the date falling six months prior to the specified date referred to in (i) above;

"Independent Adviser" means an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets, in each case appointed by the relevant Issuer at its own expense. For the avoidance of doubt, an Independent Adviser appointed pursuant to this Condition 5.2(f) shall act in good faith as an expert (in the absence of bad faith or fraud) shall have no liability whatsoever to the relevant Issuer, the Trustee, the Paying Agents, the Noteholders or the Couponholders for any determination made by it pursuant to this Condition 5.2(f);

"Original Reference Rate" means the originally-specified Reference Rate used to determine the relevant Rate of Interest (or any component part thereof) in respect of any Interest Period(s) (provided that if, following one or more Benchmark Events, such originally-specified Reference Rate (or any Successor Rate or Alternative Rate which has replaced it) has been replaced by a (or a further) Successor Rate or Alternative Rate and a Benchmark Event subsequently occurs in respect of such Successor Rate or Alternative Rate, the term "Original Reference Rate" shall include any such Successor Rate or Alternative Rate);

"Relevant Nominating Body" means, in respect of an Original Reference Rate:

- (A) the central bank, reserve bank, monetary authority or any similar institution for the currency to which the Original Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the Original Reference Rate; or

"Successor Rate" means a successor to or replacement of the Original Reference Rate or, where a Successor Rate or an Alternative Rate has been determined pursuant to Condition 5.2(f)(ii), such Successor Rate or Alternative Rate, as applicable, which is formally recommended, or formally provided as an option for parties to adopt, by any Relevant Nominating Body.

(g) ***Notification of Rate of Interest and Interest Amounts***

The Principal Paying Agent or, in the case of VPS Notes, the Calculation Agent, will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the relevant Issuer, the Guarantor, the Trustee and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and, in the case of VPS Notes, Euronext VPS and the VPS Agent and notice thereof to be published in accordance with Condition 14 (*Notices*) as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in

the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 14 (*Notices*). For the purposes of this Condition 5.2(g), the expression "**London Business Day**" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London. The notification of any rate or amount, if applicable, shall be made to Euronext VPS in accordance with and subject to Euronext VPS rules and regulations for the time being in effect.

(h) ***Certificates to be final***

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5.2 by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of manifest error) be binding on the relevant Issuer, the Guarantor, the Trustee, the Principal Paying Agent, the Calculation Agent (if applicable), the other Agents and all Noteholders and Couponholders and (in the absence of wilful default or gross negligence) no liability to the relevant Issuer, the Guarantor, the Trustee, the Noteholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent in connection with the exercise or non exercise by it of its powers, duties and discretions pursuant to such provisions.

5.3 **Accrual of interest**

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such Note have been paid; and
- (b) as provided in the Trust Deed.

5.4 **Adjustment of Rate of Interest for Fixed Rate Notes and Floating Rate Notes**

If a Step Up Rating Change and/or Step Down Rating Change is specified as being applicable in the applicable Final Terms, the following terms relating to the Rate of Interest for the Notes shall apply:

- (a) The Rate of Interest payable on the Notes will be subject to adjustment from time to time in the event of a Step Up Rating Change and/or a Step Down Rating Change, as the case may be.
- (b) Subject to Condition 5.4(d) and 5.4(h) below, from and including the first Interest Payment Date falling on or after the date of a Step Up Rating Change, the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) payable on the Notes shall be increased by the Step Up Margin.
- (c) Subject to Condition 5.4(d) and 5.4(h) below, in the event of a Step Down Rating Change following a Step Up Rating Change, with effect from and including the first Interest Payment Date falling on or after the date of such Step Down Rating Change, the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) payable on the Notes shall be decreased by the Step Up Margin back to the initial Rate of Interest (in the case of Fixed Rate Notes) or the initial Margin (in the case of Floating Rate Notes).
- (d) If a Step Up Rating Change and, subsequently, a Step Down Rating Change occur during the same Fixed Interest Period (in the case of Fixed Rate Notes) or the same Interest Period (in the case of Floating Rate Notes), the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) on the Notes shall be neither increased nor decreased as a result of either such event.

- (e) Heimstaden Bostad shall use all reasonable efforts to maintain credit ratings for its senior unsecured long-term debt from a Rating Agency. If, notwithstanding such reasonable efforts, any Rating Agency fails or ceases to assign a credit rating to Heimstaden Bostad's senior unsecured long-term debt, Heimstaden Bostad shall use all reasonable efforts to obtain a credit rating of its senior unsecured long-term debt from a Substitute Rating Agency approved (other than in the case of Moody's or Fitch) by the Trustee in writing (such approval not to be unreasonably withheld or delayed), and references herein to such Rating Agency or the credit ratings thereof, shall be to such Substitute Rating Agency or, as the case may be, the equivalent credit ratings thereof as specified in or determined in accordance with the remainder of this Condition 5.4.
- (f) Heimstaden Bostad will cause the occurrence of a Step Up Rating Change or a Step Down Rating Change giving rise to an adjustment to the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) payable on the Notes pursuant to this Condition 5.4 to be notified to the Trustee and the Principal Paying Agent and, in the case of VPS Notes, Euronext VPS and the VPS Agent and (in accordance with Condition 14 (*Notices*)) the Noteholders as soon as reasonably practicable after the occurrence of such Step Up Rating Change or Step Down Rating Change, but in no event later than the fifth London Business Day thereafter. Such notification, if applicable, shall be made to Euronext VPS in accordance with and subject to Euronext VPS rules and regulations for the time being in effect.
- (g) If the rating designations employed by any Rating Agency are changed from those which are described in this Condition 5.4 or if a rating is procured from a Substitute Rating Agency other than Moody's or Fitch, Heimstaden Bostad shall determine, with the prior approval of the Trustee (such approval not to be unreasonably withheld or delayed), the rating designations of such Rating Agency or Substitute Rating Agency (as the case may be) as are most equivalent to the prior rating designations of the existing Rating Agency (or Rating Agencies, as the case may be).
- (h) Notwithstanding any other provision contained herein, there shall be no limit on the number of times that the Rate of Interest may be adjusted pursuant hereto during the term of the Notes **provided that** at no time during the term of the Notes will the Rate of Interest be (i) less than the initial Rate of Interest or (ii) more than the initial Rate of Interest plus the Step Up Margin specified hereon.

Where:

"Rating Agency", "Fitch", "Moody's", "S&P" and "Substitute Rating Agency" have the meanings given to such terms in Condition 7.7 (*Redemption at the option of the Noteholders upon a Change of Control (Change of Control Put)*);

"Step Down Rating Change" means the first public announcement by S&P and, if applicable, each other Rating Agency appointed by or with the consent of Heimstaden Bostad, after a Step Up Rating Change, that the credit rating of Heimstaden Bostad's senior unsecured long-term debt is at least BBB in the case of S&P and, if applicable, at least Baa3 in the case of Moody's and at least BBB in the case of Fitch with the result that, following such public announcement, no Rating Agency assigns a credit rating below the aforementioned levels or any equivalent rating. For the avoidance of doubt, any further increase in the credit rating of Heimstaden Bostad's senior unsecured long-term debt above BBB in the case of S&P and, if applicable, at least Baa3 in the case of Moody's and at least BBB in the case of Fitch and in respect of any other Substitute Rating Agency, an equivalent rating or above shall not constitute a further Step Down Rating Change;

"Step Up Margin" means the rate per annum specified in the applicable Final Terms; and

"Step Up Rating Change" means the first public announcement by S&P or, if applicable, any other Rating Agency appointed by or with the consent of Heimstaden Bostad, of a decrease in the credit rating of Heimstaden Bostad's senior unsecured long-term debt to below BBB (in the case of S&P) or below Baa3 (in the case of Moody's) or below BBB (in the case of Fitch). For the avoidance of doubt, any further decrease in the credit rating

of Heimstaden Bostad's senior unsecured long-term debt below BBB in the case of S&P or, if applicable, below Baa3 in the case of Moody's or below BBB in the case of Fitch and in respect of any other Substitute Rating Agency, an equivalent rating or below shall not constitute a further Step Up Rating Change.

5.5 Calculation Agent

The relevant Issuer and the Guarantor shall procure that there shall at all times be one or more Calculation Agents if provision is made for them in respect of any Notes and for so long as such Note is outstanding. Where more than one Calculation Agent is appointed in respect of any Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest payable from time to time or to calculate any Interest Amount, Final Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the relevant Issuer and the Guarantor, shall (with prior notification to the Trustee) appoint a leading bank or investment banking firm engaged in the inter-bank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal London office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

6. PAYMENTS

6.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and
- (b) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 8 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 8 (*Taxation*)) any law implementing an intergovernmental approach thereto.

6.2 Presentation of definitive Bearer Notes and Coupons

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in Condition 6.1 (*Method of Payment*) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Fixed Rate Notes in definitive bearer form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount

of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 8 (*Taxation*)) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 9 (*Prescription*)) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "**Long Maturity Note**" is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon **provided that** such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

6.3 **Payments in respect of Bearer Global Notes**

Payments of principal and interest (if any) in respect of Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes or otherwise in the manner specified in the relevant Global Note, where applicable against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

6.4 **Payments in respect of Registered Notes**

Payments of principal in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the "**Register**") (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. For these purposes, "**Designated Account**" means the account (which, in the case of a payment in Japanese yen to a non resident of Japan, shall be a non resident account) maintained by a holder with a Designated Bank and identified as such in the Register and "**Designated Bank**" means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest in respect of each Registered Note (whether or not in global form) will be made by transfer on the due date to the Designated Account of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the

relevant due date (the "**Record Date**"). Payment of the interest due in respect of each Registered Note on redemption will be made in the same manner as payment of the principal amount of such Registered Note.

No commissions or expenses shall be charged to the holders by the Registrar in respect of any payments of principal or interest in respect of Registered Notes.

None of the relevant Issuer, the Guarantor, the Trustee or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

6.5 **Payments in respect of VPS Notes**

Payments of principal and interest in respect of VPS Notes will be made to the Noteholders shown in the records of Euronext VPS in accordance with and subject to the rules and regulations from time to time governing Euronext VPS.

The VPS Agent and any Calculation Agent act solely as agents of the relevant Issuer and the Guarantor and do not assume any obligation or relationship of agency or trust for or with any holder of VPS Notes. The relevant Issuer and the Guarantor reserve the right at any time, with prior notification to the Trustee, to vary or terminate the appointment of the VPS Agent or the Calculation Agent and to appoint additional or other agents, **provided that** the relevant Issuer and the Guarantor shall at all times maintain (i) a VPS Agent authorised to act as an account operating institution with Euronext VPS, (ii) one or more Calculation Agent(s) where the Conditions so require, and (iii) such other agents as may be required by any stock exchange on which the VPS Notes may be listed. Notice of any such change or of any change of any specified office shall promptly be given to the holders of VPS Notes in accordance with Condition 14 (*Notices*).

6.6 **General provisions applicable to payments**

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the relevant Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for their share of each payment so made by the relevant Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition 6.6, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (a) the relevant Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the relevant Issuer and the Guarantor, adverse tax consequences to the relevant Issuer or the Guarantor.

6.7 **Payment Day**

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, "**Payment Day**" means any day which (subject to Condition 9 (*Prescription*)) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits):
 - (i) in the case of Notes in definitive form only, in the relevant place of presentation; and
 - (ii) in each Additional Financial Centre (other than TARGET2 System) specified in the applicable Final Terms;
- (b) if TARGET2 System is specified as an Additional Financial Centre in the applicable Final Terms, a day on which the TARGET2 System is open; and
- (c) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

6.8 **Interpretation of principal and interest**

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 8 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) the Change of Control Redemption Amount (if any) of the Notes; and
- (f) any premium and any other amounts (other than interest) which may be payable by the relevant Issuer under or in respect of the Notes.

Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed.

7. **REDEMPTION AND PURCHASE**

7.1 **Redemption at maturity**

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the relevant Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Maturity Date specified in the applicable Final Terms.

7.2 **Redemption for tax reasons**

The Notes may be redeemed at the option of the relevant Issuer in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than the minimum period nor more than the maximum period of notice each as specified in the applicable Final Terms to the Trustee and the Principal Paying Agent (or, in the case of VPS Notes, the Trustee and the VPS Agent) and, in accordance with Condition 14 (*Notices*), the Noteholders (which notice shall be irrevocable), if the relevant Issuer satisfies the Trustee immediately before the giving of such notice that:

- (a) on the occasion of the next payment due under the Notes, the relevant Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 (*Taxation*) or the Guarantor is unable to procure payment by the relevant Issuer and in making payment itself would be required to pay such additional amounts, in each case as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 8 (*Taxation*)) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (b) such obligation cannot be avoided by the relevant Issuer or, as the case may be, the Guarantor, taking reasonable measures available to it.

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the relevant Issuer or, as the case may be, the Guarantor, would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition 7.2, the relevant Issuer shall deliver to the Trustee and, in the case of VPS Notes, the VPS Agent, to make available at their specified office to the Noteholders (i) a certificate signed by an Authorised Signatory of the relevant Issuer or, as the case may be, an Authorised Signatory of the Guarantor stating that the relevant Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the relevant Issuer so to redeem have occurred and (ii) an opinion of independent legal advisers of recognised standing to the effect that the relevant Issuer or, as the case may be, the Guarantor has or will become obliged to pay such additional amounts as a result of such change or amendment. The Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders and the Couponholders.

Notes redeemed pursuant to this Condition 7.2 will be redeemed at their Early Redemption Amount referred to in Condition 7.9 (*Early Redemption Amounts*) below together with any interest accrued to (but excluding) the date of redemption.

7.3 **Redemption at the option of the Issuer (Issuer Call)**

If Issuer Call is specified as being applicable in the applicable Final Terms, the relevant Issuer may, having given not less than the minimum period nor more than the maximum period of notice each as specified in the applicable Final Terms to the Noteholders in accordance with Condition 14 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) each as specified in the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Where the Optional Redemption Amount is Spens Amount or Make-whole Amount, any such notice of redemption may, at the relevant Issuer's discretion, be subject to one or more conditions precedent, in which case such notice shall state that, in the relevant Issuer's discretion, the Optional Redemption Date may be delayed until such time as any or all such conditions shall be satisfied (or waived by the relevant Issuer in its sole discretion), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied (or waived by the relevant Issuer in its sole discretion) by the Optional Redemption Date, or by the Optional Redemption Date so delayed. Any such redemption must be of a nominal amount not less

than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Final Terms.

The Optional Redemption Amount will either be the specified percentage of the nominal amount of the Notes stated in the applicable Final Terms or, if either Spens Amount or Make-whole Amount is specified in the applicable Final Terms, will be:

- (a) if Spens Amount is specified as being applicable in the applicable Final Terms, the higher of (i) 100% of the nominal amount outstanding of the Notes to be redeemed and (ii) the nominal amount outstanding of the Notes to be redeemed multiplied by the price, as reported to the relevant Issuer and the Trustee by the Determination Agent, at which the Gross Redemption Yield on such Notes on the Reference Date is equal to the Gross Redemption Yield (determined by reference to the middle market price) at the Quotation Time on the Reference Date of the Reference Bond, plus the Redemption Margin; or
- (b) if Make-whole Amount is specified as applicable in the applicable Final Terms, the higher of (i) 100% of the nominal amount outstanding of the Notes to be redeemed and (ii) the sum of the present values of the nominal amount outstanding of the Notes to be redeemed and the Remaining Term Interest on such Notes (exclusive of interest accrued to the date of redemption) and such present values shall be calculated by discounting such amounts to the date of redemption on an annual basis (assuming the Day Count Fraction specified in the applicable Final Terms or such other day count basis as the Determination Agent may consider to be appropriate having regard to customary market practice at such time) at the Reference Bond Rate, plus the Redemption Margin, all as determined by the Determination Agent.

In this Condition 7.3:

"DA Selected Bond" means a government security or securities (which if the Specified Currency is euro, will be a German *Bundesobligationen*) selected by the Determination Agent as having an actual or interpolated maturity comparable with the remaining term of the Notes, that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities denominated in the Specified Currency and of a comparable maturity to the remaining term of the Notes;

"Determination Agent" means an investment bank, financial institution of international standing or an independent financial adviser with appropriate expertise selected by the relevant Issuer;

"Quotation Time" shall be as set out in the applicable Final Terms;

"Redemption Margin" shall be as set out in the applicable Final Terms;

"Reference Bond" shall be as set out in the applicable Final Terms or the DA Selected Bond;

"Reference Bond Price" means, with respect to any date of redemption, (a) the arithmetic average of the Reference Government Bond Dealer Quotations for such date of redemption, after excluding the highest and lowest such Reference Government Bond Dealer Quotations, or (b) if the Determination Agent obtains fewer than four such Reference Government Bond Dealer Quotations, the arithmetic average of all such quotations;

"Reference Bond Rate" means, with respect to any date of redemption, the rate per annum equal to the annual or semi-annual yield (as the case may be) to maturity or interpolated yield to maturity (on the relevant day count basis) of the Reference Bond, assuming a price for the Reference Bond (expressed as a percentage of its nominal amount) equal to the Reference Bond Price for such date of redemption;

"Reference Date" will be set out in the relevant notice of redemption;

"Reference Government Bond Dealer" means each of five banks selected by the relevant Issuer, or their affiliates, which are (A) primary government securities dealers, and their respective successors, or (B) market makers in pricing corporate bond issues;

"Reference Government Bond Dealer Quotations" means, with respect to each Reference Government Bond Dealer and any date of redemption, the arithmetic average, as determined by the Determination Agent, of the bid and offered prices for the Reference Bond (expressed in each case as a percentage of its nominal amount) at the Quotation Time on the Reference Date quoted in writing to the Determination Agent by such Reference Government Bond Dealer; and

"Remaining Term Interest" means, with respect to any Note, the aggregate amount of scheduled payment(s) of interest on such Note for the remaining term to maturity of such Note (or, if Issuer Par Call is specified as being applicable in the applicable Final Terms, the remaining term up to the Par Call Period Commencement Date as specified in the applicable Final Terms) determined on the basis of the rate of interest applicable to such Note from and including the date on which such Note is to be redeemed by the relevant Issuer pursuant to this Condition 7.3.

In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption and (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion). 7.6 **Redemption at the option of the Noteholders (Investor Put)**

If Investor Put is specified as being applicable in the applicable Final Terms, upon the holder of any Note giving to the relevant Issuer in accordance with Condition 14 (*Notices*) not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms, the relevant Issuer will, upon the expiry of such notice, redeem such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

If this Note is in definitive bearer form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control.

If this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on their instruction by Euroclear, Clearstream, Luxembourg, or any common depositary or common safekeeper, as the case may be for them to the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time.

If this Note is a VPS Note, to exercise the right to require redemption of the VPS Notes, the holder of the VPS Notes, must, within the notice period, give notice to the VPS Agent of such exercise in accordance with the standard procedures of Euronext VPS from time to time.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg by a holder of any Note pursuant to this Condition 7.6 shall be irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and the Trustee has declared the Notes to be due and payable pursuant to Condition 10 (*Events of Default and Enforcement*), in which event such holder, at its option, may elect by notice to the relevant Issuer to withdraw the notice given pursuant to this Condition 7.6 and instead to declare such Note forthwith due and payable pursuant to Condition 10 (*Events of Default and Enforcement*).

7.7 **Redemption at the option of the Noteholders upon a Change of Control (Change of Control Put)**

If a Change of Control Put is specified in the applicable Final Terms, upon the occurrence of a Change of Control Put Event (as defined below), each Noteholder will have the option (the "**Change of Control Put Option**") to require the relevant Issuer to redeem or, at the relevant Issuer's option, purchase (or procure the purchase of) that Noteholder's Notes on the Change of

Control Put Date (as defined below) at the Change of Control Redemption Amount together with interest accrued to but excluding the date of redemption or purchase.

Promptly upon the relevant Issuer or the Guarantor becoming aware that a Change of Control Put Event has occurred and, in any event, within 5 days of the relevant Issuer and/or the Guarantor becoming aware that such Change of Control Put Event has occurred, the relevant Issuer and/or the Guarantor shall, and at any time upon the Trustee becoming so aware (the relevant Issuer and/or the Guarantor having failed to do so) the Trustee may, and, if so requested by the holders of at least one-fifth in principal amount of the Notes then outstanding, shall, (subject in each case to being indemnified and/or secured and/or prefunded to its satisfaction) give notice (a "**Change of Control Put Event Notice**") to the Noteholders in accordance with Condition 14 (*Notices*) specifying the nature of the Change of Control Put Event and the procedure for exercising the Change of Control Put Option.

To exercise the Change of Control Put Option, the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar, on any Payment Day (as defined in Condition 6.7 (*Payment Day*)) at the place of such specified office falling within the Change of Control Put Period (as defined below), a duly signed and completed notice of exercise in the form for the time being current obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a "**Change of Control Put Exercise Notice**") and in which the holder must specify a bank account (or, if payment is to be made by cheque, an address) to which payment is to be made under this Condition 7.7 and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 2.3 (*Transfers of Registered Notes in definitive form*). If this Note is in definitive bearer form, the Change of Control Put Exercise Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following the delivery of the Change of Control Put Exercise Notice, be held to its order or under its control.

If this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption or, as the case may be, purchase of this Note under this Condition 7.7 the holder of this Note must, within the Change of Control Put Period, give notice to the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) of such exercise in accordance with the standard procedures of Euroclear and/or Clearstream, Luxembourg (which may include notice being given on their instruction by Euroclear and/or Clearstream, Luxembourg or any common depositary or common safekeeper, as the case may be, for them to the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) by electronic means) in a form acceptable to Euroclear and/or Clearstream, Luxembourg from time to time.

If this Note is a VPS Note, to exercise the right to require redemption or, as the case may be, purchase of a Note under this Condition 7.7, the holder of the VPS Note must, within the Change of Control Put Period, give notice to the VPS Agent of such exercise in accordance with the standard procedures of Euronext VPS from time to time.

A Change of Control Put Exercise Notice given by a holder of any Note shall be irrevocable except where, prior to the due date of redemption or purchase, an Event of Default has occurred and the Trustee has declared the Notes to be due and payable pursuant to Condition 10 (*Events of Default and Enforcement*), in which event such holder, at its option, may elect by notice to the relevant Issuer to withdraw the Change of Control Put Exercise Notice given pursuant to this Condition 7.7 and instead treat its Notes as being forthwith due and payable pursuant to Condition 10 (*Events of Default and Enforcement*).

Any Note which is the subject of a Change of Control Put Exercise Notice which has been delivered as described above prior to the expiry of the Change of Control Put Period shall be redeemed or, as the case may be, purchased by (or on behalf of) the relevant Issuer on the date which is the

seventh Business Day as defined in Condition 5.2(a) (*Interest Payment Dates*) immediately following the last day of the Change of Control Put Period (the "**Change of Control Put Date**").

The Trustee shall not be required to take any steps to ascertain whether a Change of Control Put Event or Change of Control or any event which could lead to the occurrence of, or could constitute, a Change of Control Put Event or Change of Control has occurred and, until it shall have received notice thereof pursuant to the Trust Deed to the contrary, the Trustee may assume that no Change of Control Put Event or Change of Control or other such event has occurred.

 - (i) an investment grade credit rating (*Baa3/BBB/BBB, or equivalent, or better*) (an "**Investment Grade Rating**") from any Rating Agency (provided by such Rating Agency at the invitation or with the consent of Heimstaden Bostad) and, within the Change of Control Period, any such Rating Agency downgrades its rating of the Notes to a non-investment grade credit rating (*Ba1/BB+/BB+ or equivalent, or worse*) or withdraws its rating of the Notes and such rating is not within the Change of Control Period (in the case of a downgrade) upgraded or (in the case of a withdrawal) reinstated to an Investment Grade Rating by such Rating Agency; or

 - (iii) no credit rating from any Rating Agency and a Negative Rating Event also occurs within the Change of Control Period,and
- (c) in making the relevant decision(s) referred to above, the relevant Rating Agency announces publicly or confirms in writing to the relevant Issuer, the Guarantor or the Trustee that such downgrading and/or withdrawal resulted, directly or indirectly, from the Change of Control or the Potential Change of Control Announcement (whether or not the Change of Control shall have occurred at the time such rating is downgraded and/or withdrawn). Upon receipt by the relevant Issuer, the Guarantor or the Trustee of any such written confirmation, the relevant Issuer shall forthwith give notice of such written confirmation to the Noteholders in accordance with Condition 14 (*Notices*).

If the rating designations employed by S&P, Moody's or Fitch are changed from those which are described in paragraph (b) of the definition of "Change of Control Put Event" above, or if a rating is procured from a Substitute Rating Agency, Heimstaden Bostad shall determine the rating designations of S&P, Moody's or Fitch or such Substitute Rating Agency (as appropriate) as are

"Potential Change of Control Announcement" means any public announcement or statement by or on behalf of Heimstaden Bostad, any actual or potential bidder or any adviser acting on behalf of any actual or potential bidder relating to any potential Change of Control where within 180 days following the date of such announcement or statement, a Change of Control occurs; and

All payments of principal and interest in respect of the VPS Notes by the relevant Issuer or the Guarantor shall be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the relevant Issuer or, as the case may be, the Guarantor will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the VPS Notes after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the VPS Notes in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any VPS Note the holder of which is liable for such taxes or duties in respect of such VPS Note by reason of them having some connection with a Tax Jurisdiction other than the mere holding of such VPS Note.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication in such newspaper(s) or such mailing the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published on the website of the relevant stock exchange or relevant authority and/or in a daily newspaper of general circulation in the place or places required by those rules. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Principal Paying Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Principal Paying Agent, the Registrar and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

An Extraordinary Resolution passed by the Noteholders will be binding on all Noteholders, whether or not they are present at any such meeting and whether or not they voted on the resolution, and on all Couponholders.

16.2 **Modification, Waiver, Authorisation and Determination**

The Trustee may agree, without the consent of the Noteholders or Couponholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of these Conditions or any of the provisions of the Trust Deed or the Agency Agreement, or determine, without any such consent as aforesaid, that any Event of Default or Potential Event of Default (as defined in the Trust Deed) shall not be treated as such (**provided that**, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders) or may agree, without any such consent as aforesaid, to any modification which, in its opinion, is of a

formal, minor or technical nature or to correct a manifest error or an error which, in the opinion of the Trustee, is proven.

Additionally, the relevant Issuer may, subject to Condition 5.2(f), vary or amend these Conditions, the Trust Deed and/or the Agency Agreement to give effect to certain amendments without any requirement for the consent or approval of Noteholders of the relevant Notes or Coupons, as described in Condition 5.2(f) and the Trustee shall agree to such variations or amendments on the basis set out in Condition 5.2(f).

16.3 **Trustee to have Regard to Interests of Noteholders as a Class**

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation, determination or substitution), the Trustee shall have regard to the general interests of the Noteholders as a class but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the relevant Issuer, the Guarantor, the Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 8 (*Taxation*) and/or any undertaking or covenant given in addition to, or in substitution for, Condition 8 (*Taxation*) pursuant to the Trust Deed.

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility and liability towards the relevant Issuer and the Guarantor, the Noteholders and the Couponholders, including (i) provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction and (ii) provisions limiting or excluding its liability in certain circumstances. The Trust Deed provides that, when determining whether an indemnity or any security or pre-funding is satisfactory to it, the Trustee shall be entitled (i) to evaluate its risk in any given circumstance by considering the worst-case scenario and (ii) to require that any indemnity or security given to it by the Noteholders or any of them be given on a joint and several basis and be supported by evidence satisfactory to it as to the financial standing and creditworthiness of each counterparty and/or as to the value of the security and an opinion as to the capacity, power and authority of each counterparty and/or the validity and effectiveness of the security. The Trustee may rely without liability to the Noteholders or Couponholders on a report, confirmation or certificate or opinion or any advice of any accountants, financial advisers, financial institution or other expert, whether or not addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by the Trustee or in any other manner) by reference to a monetary cap, methodology or otherwise. The Trustee may accept and shall be entitled to rely on any such report, opinion, confirmation or certificate or advice and such report, opinion, confirmation, or certificate or advice shall be binding on the relevant Issuer and the Guarantor, the Trustee, the Noteholders and the Couponholders.

17.2 **Trustee Contracting with the Issuers and/or the Guarantor**

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*, (a) to enter into business transactions with the Issuers, the Guarantor and/or any of their respective Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuers, the Guarantor or any of their respective Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

17.3 **Trustee Actions**

The Trustee may refrain from taking any action in any jurisdiction if the taking of such action in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.

18. **FURTHER ISSUES**

The relevant Issuer shall be at liberty from time to time without the consent of the Noteholders or the Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue and so that the same shall be consolidated and form a single Series with the outstanding Notes.

19. **CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999**

No person shall have any right to enforce any term or condition of this Note under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

20. **GOVERNING LAW AND SUBMISSION TO JURISDICTION**

20.1 **Governing law**

- (a) The Trust Deed, the Agency Agreement, the Notes and the Coupons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Agency Agreement, the Notes and the Coupons are governed by, and construed in accordance with, English law, except that the registration of VPS Notes in Euronext VPS as well as the recording and transfer of ownership to, and other interests in, VPS Notes are governed by, and construed in accordance with, Norwegian law.
- (b) VPS Notes must comply with the Norwegian Central Securities Depositories Act of 15 March 2019 no. 6 which implements Regulation (EU) No. 909/2014 into Norwegian law, and, to the extent applicable, the Norwegian Securities Register Act of 5 July 2002 no. 64, as amended from time to time and the holders of VPS Notes will be entitled to the rights and are subject to the obligations and liabilities which arise under this Act and any related regulations and legislation.
- (c) The VPS Agency Agreement (and any non-contractual obligations arising out of or in connection with the VPS Agency Agreement) are governed by, and shall be construed in accordance with, Norwegian law.

20.2 **Submission to jurisdiction**

- (a) Subject to Condition 20.2(c) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Trust Deed, the Notes and/or the Coupons, including any dispute as to their existence, validity, interpretation, performance,

breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes and/or the Coupons (a "**Dispute**") and accordingly each of the relevant Issuer and the Trustee and any Noteholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.

- (b) For the purposes of this Condition 20.2, the relevant Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (c) To the extent allowed by law, the Trustee, the Noteholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions.

20.3 **Appointment of Process Agent**

Each of the Issuers and the Guarantor irrevocably appoints Heimstaden Holding U.K. Ltd at One Fleet Place, London, England, EC4M 7WS as its agent for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Heimstaden Holding U.K. Ltd being unable or unwilling for any reason so to act, it will immediately appoint another person approved by the Trustee as its agent for service of process in England in respect of any Dispute. Each of the Issuers and the Guarantor agrees that failure by a process agent to notify any of it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

20.4 **Other documents and the Guarantor**

The relevant Issuer and, where applicable, the Guarantor have in the Trust Deed and Agency Agreement submitted to the jurisdiction of the English courts and appointed an agent for service of process in terms substantially similar to those set out above.

The History of Heimstaden Bostad

2013

Heimstaden Bostad's first property portfolio was acquired from Heimstaden. Initially, the strategy of the owners was to establish a "static" company with no growth ambitions.

With decreasing interest rates the owners saw an opportunity to acquire additional real estate. Portfolios in Trelleborg, Skellefteå and Katrineholm in Sweden were acquired.

Fair value of investment properties: SEK 6.1 billion.

The second substantial acquisition from Heimstaden was finalised on 31 August 2016. In addition, portfolios in Luleå and Växjö in Sweden were acquired from real estate companies owned by the local municipalities.

The earnings capacity represents annualised earnings calculated on the basis of the contracted rental income, current property expenses and administrative expenses of the property portfolio as of 30 June 2021. Announced property acquisitions that closed after the balance sheet date are not included in the calculation. The earnings capacity should not be considered a forecast for the current year or for the next 12-month period. There can

be no assurance that such figures will not change in the future and therefore it is not a forecast of actual future earnings.

Valuation of Investment Properties

Heimstaden Bostad's investment properties in Denmark, Sweden, the Netherlands, Germany and the Czech Republic are valued by external valuers on a quarterly basis, with the last valuation taking place as of 30 June 2021. For all of these valuations the Group instructs a real estate advisory company with professional qualifications, experience and the capacity to carry out the valuation in accordance with the required international standards. As of 30 June 2021, external valuations were conducted by CBRE for Denmark, Newsec (part of portfolio) and Forum (part of portfolio) for Sweden, Cushman & Wakefield for the Netherlands, CBRE for Germany and JLL (Jones Long LaSalle) in the Czech Republic.

Heimstaden Bostad's investment properties in Norway, are valued by external valuers on an annual basis for the residential part of the portfolio and on a quarterly basis for the commercial, parking and development potential part of the portfolio, with the last annual valuation taking place as of 31 December 2020 and the last quarterly valuation taking place as of 30 June 2021.

In addition, Heimstaden Bostad uses a dedicated competent in-house valuation team provided by Heimstaden ensuring quality control of all external valuations and setting up standardised structures and processes across markets.

The valuation methodology is based on best market practice in each respective country. In Denmark, Sweden, the Netherlands, Germany and the Czech Republic the valuation is performed using cash flow analysis based on each property's net operating income, with an assumption of re-letting the units at market terms upon tenant fluctuation. Based on the estimated net operating income, a simulation is performed for the ensuing budget periods earnings capacity. Based on the stabilised net operating income at the end of the cash flow period a terminal value is calculated. The present value is calculated using a discounted cash flow model (DCF), where the discount rate and exit return requirement are based on local yield analysis of completed transactions, as well as individual assessments of the risk level and the property's market position. The sum of the calculated net present values represents the estimated market value of the property. The values are verified, by comparing the valuations with capital values on other similar transactions in the market. For Denmark and the Netherlands, in addition to the re-letting scenario a divestment scenario is also considered. In the divestment scenario the market value is based on a cash flow generated by successfully divesting the property units as owner-occupied units upon tenant fluctuation. The valuations are hereafter based on "highest-and-best use" based on the highest value from the re-letting and divestment scenario. In Norway the properties are valued using a sum of all parts method. In the valuation each unit is valued separately. The residential units are valued on a vacant possession value basis by Aktiv Eiendomsmegling, Nyverdi AS, Eie Eiendomsmegling and Heimstaden – the average of those four valuations are used. Cushman & Wakefield values the commercial areas, parking spots and development potential. The sum of all these valuations is equivalent to the market value. Quarter-by-quarter, Cushman & Wakefield provides Heimstaden Bostad with an updated valuations of the commercial, parking and development part or all properties. Residential valuations are adjusted with the NEF-index (a residential real estate price index provided by the Norwegian Association of Real Estate Agents (*Norges Eiendomsmeidlerforbund*)) each quarter during the year.

Tenants

The Group has a diversified tenant group. The Group does not hold any properties that are exclusively for commercial use, and most of the commercial tenants are businesses (such as restaurants, offices and related) located on the ground floor of residential buildings. The Group's ten largest tenants account for less than 1% of the Group's total rental income.

Lease Activities

Denmark

Denmark has two different rental regimes depending on the construction year of the property.

Properties built before 31 December 1991 have regulated rent, but increases in respect of modernisation are permitted. Regulated rents can, in general, only be increased based on increases in operating costs.

Properties built after 31 December 1991 fall under a regime with market based rents, which are increased annually by the CPI.

Through investments, the rent can be increased as follows:

- Small investment: Increase by a theoretical financing cost for funding the investment
- Large investment: Increase to a utility value-based rent

Residential contracts run without a fixed maturity.

Sweden

In Sweden the rent of each apartment is negotiated between the property owner and the Swedish Union of Tenants on an annual basis based on the Swedish rental system of utility value.

The utility value principle implies that apartments in the same micro location with the same characteristics such as standard, size, appliances and certain property specific characteristics such as quality of common areas shall have the same rent.

Since 2006, to stimulate new developments, there is an option to deviate from the utility value principle and to charge "*presumtionshyra*". This is a negotiated rent between the property owner and the Swedish

Union of Tenants but taking the construction costs into account which allows for rent levels above the general utility value.

Residential contracts run without a fixed maturity.

The Netherlands

In the Netherlands all rental properties fall under the "housing evaluation system", which determines if a unit is classified as "liberalised" (free market rent) or "regulated" (rent control).

If a unit is classified as liberalised or regulated depends on the number of WWS points (Dutch: *Woningwaarderingssysteem*) the unit has scored. Each unit gets points based on various factors such as size, energy label, appliances and standard.

The number of WWS points determines the maximum amount of rent that can be charged. If a unit has 143 or more points, it is classified as a liberalised unit, meaning the landlord can let out the unit at market rents. If a unit has below 143 points the rent is pre-determined by the points system.

Regulated contracts are generally linked to CPI and each year the authorities determine a catch up for rents that can be utilised if the rent is below the maximum allowed point system rent, while liberalised contracts can be increased in accordance with rental contract provisions. In the Netherlands, a customary rent increase clause is CPI plus 5% but for the years 2021, 2022 and 2023 the Dutch government has introduced legislation that caps this at CPI plus 1%.

Norway

Norway has free market rent.

The market practice in Norway comprises residential contracts with a three-year lease duration, where the contracts can be renewed at market rent after three years.

In 2021, Heimstaden Bostad implemented open-ended contracts as a standard. The objective is to enable its customers to plan long-term when renting a Heimstaden Bostad home, lower the churn in the portfolio and contribute to a more predictable and stable rental market.

Germany

Germany first introduced a rent regulation system, the so-called "rental break" in 2015. Though initially set to expire after five years, the law has been prolonged until 2025 and Heimstaden Bostad expects it to be made permanent in some form after the next federal elections which occur in autumn 2021.

As a federal law, the "rental break" has nationwide applicability. However, it is up to the 16 state governments to decide which municipalities the law is triggered for. As at the date of this Base Prospectus, it is in force in most larger German cities of 200,000 inhabitants upwards.

Similar to Sweden and Denmark, re-letting rents are anchored to comparables as defined by year of construction, standard, equipment, location, etc. Most municipalities publish a biennial rental survey with a lookback period of six years to create transparency around this process and to slow the pace of rent inflation.

The "rental break" allows for two important exceptions:

- Buildings completed after October 2014 are generally exempt
- The first re-letting upon extensive refurbishment (> 650 EUR/square metre) is exempt

In general, residential contracts must have an indefinite lease term. CPI indexation can be contractually agreed upon but is rarely used by landlords in practice.

Czech Republic

In the Czech Republic the rent regulation system in most municipalities ended on 31 December 2010. After this the market was fully liberalised and landlords have contractual freedom to negotiate with tenants on the length of tenancy and rental rate.

The new civil code in 2014 contained rules for rent increases driven by market trends in case that no rental uplift is agreed in the contract (in such cases the rent increase cannot exceed 20% over three consecutive years). The rules apply a fixed 4% annual increase for a three year lease contract (therefore a 12% increase over three years) and, in the event inflation is higher than 4%, the rent increases by the same rate as inflation.

There are still legacy tenancy agreements that were signed prior to deregulation (before 2010) with typically indefinite terms and lower rental rates. In such cases, the landlord and the tenant have to agree on a new rental rate or ask a court to set a new rental rate for them based on a location benchmark.

Market rent increases (usually annual) are based on market pricing developments in the relevant location in addition to the % amount equal to rent prices according to market pricing map for each location.

Most tenants are generally required to provide a deposit amounting to 1 month rent plus services related to apartment.

Signed Acquisitions

Heimstaden Bostad expands and improves its portfolio through acquisitions of standing assets and newbuilds. As at 30 June 2021, the pipeline of signed acquisitions that have not yet been completed was SEK 19.1 billion and comprised 11,212 residential units. Newbuild investments are structured either as forward purchase or forward funding.

Heimstaden Bostad had forward funding contracts with a total capital expenditure commitment of SEK 6.1 billion as at 30 June 2021.

Signed acquisitions have not yet closed and are subject to conditions precedent, for example, developers meeting development targets. Therefore, such acquisitions are not guaranteed to complete on schedule or at all if conditions precedent are not met.

The graph below shows the signed acquisitions by the Group by scheduled closing date in SEK million as at 30 June 2021.

Signed acquisitions (SEK 19.1 billion) as at 30 June 2021, unaudited (SEK million)

Heimstaden Bostad constantly looks for opportunities for potential acquisitions of residential properties and portfolios that fit with its existing business activities. Such acquisitions may in the future be purchased

using a combination of available cash, equity injections from shareholders and future debt financing. Heimstaden Bostad is also considering viable investment opportunities in countries outside of its current portfolio and may in the future place bids to acquire properties and portfolios that fit with its existing business activities. Such bids are typically competitive in nature and there can be no assurance that Heimstaden Bostad's bids will be accepted, or that acquisitions will be available at a price that is attractive to Heimstaden Bostad. Furthermore, any bids or acquisitions are the subject of due diligence and may not be completed on time or at all. In order to continue to grow through acquisitions Heimstaden Bostad will need to fund its activities through a combination of equity injections and debt raising. The ability of Heimstaden Bostad to complete any acquisitions will therefore be dependent on the ability to attract and raise additional finance at commercially attractive rates, that maintain compliance with Heimstaden Bostad's financial covenants.

SELECTED KEY PERFORMANCE INDICATORS

Alternative Performance Measures

Heimstaden Bostad applies the European Securities and Markets Authority ("**ESMA**") Guidelines on the Alternative Performance Measures (issued on 5 October 2015) (the "**ESMA guidelines**"). Heimstaden Bostad presents certain financial measures that are not defined in accordance with International Financial Reporting Standards as adopted in the European Union ("**IFRS**"). Heimstaden Bostad believes that these measures provide valuable additional information to investors and management as they enable assessment of the Group's performance. Since not all companies calculate financial measures in the same way, these are not always comparable to measurements used by other companies. Accordingly, these financial measures should not be considered as a replacement for measures defined in accordance with IFRS. Further details are provided below in respect of alternative performance measures used in this Base Prospectus.

*) These specific key performance indicators are operational and are not considered to be key data in accordance with the ESMA guidelines.

Net operating income margin (%)

Net operating income for the period as a percentage of rental and service income for the period. This key performance indicator shows the profitability of the properties.

Interest coverage ratio (rolling 12 months) (multiple)

Profit before financial items plus financial income divided by financial costs attributable to interest-bearing liabilities. The interest coverage ratio is an industry standard ratio used to determine the extent to which Heimstaden Bostad's interest and debt servicing expenses are covered by operating profits. In addition, this ratio provides additional transparency on cash flow that is available after servicing debt obligations.

Interest coverage ratio, (S&P method) (rolling 12 months) (multiple)

EBITDA (adjusted) divided by Interest Expense (adjusted). EBITDA (adjusted) means operating profit before inventory properties and fair value adjustments, plus depreciation and amortisation and less share of net profits of associates and joint ventures. Interest Expense (adjusted) means interest expenses on interest-bearing liabilities and 50% of the accrued (scheduled) dividend payments in respect of Heimstaden Bostad's outstanding hybrid capital as financial costs. The inclusion of 50% of the hybrid dividend payments reflects S&P's classification of Heimstaden Bostad's outstanding hybrid capital as being 50% debt and 50% equity (rather than the IFRS classification of the same instrument being 100% equity).

Net loan-to-value ratio (%)

Net loan-to-value ratio is interest-bearing secured liabilities and interest-bearing unsecured liabilities minus cash and cash equivalents as a percentage of fair value of investment properties. Loan-to-value is an acknowledged measure of leverage and risk in the real estate industry. This ratio highlights Heimstaden Bostad's ability to manage financial liabilities given its fair value real estate portfolio.

Secured loan-to-value ratio (%)

Interest-bearing secured liabilities as a percentage of total assets.

Net interest-bearing liabilities (SEK million)

Interest-bearing liabilities less financial assets, cash and cash equivalents.

Net debt to total assets (%)

Net interest-bearing liabilities as a percentage of total assets.

Net debt / Net debt + Equity (S&P method) (%)

Equity (adjusted) is computed as equity plus 50% of principal amount of hybrid liabilities. Net debt is computed as the sum of total interest-bearing liabilities plus 50% of principal amount of hybrid liabilities and right-of-use liabilities less financial assets, cash and cash equivalents (with a 10% decrease for cash

and cash equivalents to reflect S&P methodology). Net debt / (Net debt + Equity) is computed as net debt divided by net debt plus equity (adjusted). This metric is calculated according to S&P's rating methodology, with 50% of the principal amount of hybrid bonds classified as debt and 50% classified as equity (rather than the IFRS classification of the same instrument being 100% equity).

Equity ratio (%)

Equity as a percentage of total assets. This key performance indicator shows financial risk.

Average interest rate (%)*

Average interest on the balance sheet date for interest-bearing liabilities with interest rate derivatives taken into account.

The average remaining term of fixed interest in the loan portfolio, including derivatives (years)*

Average remaining maturity on the interest settlement date of all credits and derivatives in the debt portfolio.

Average loan tenor (years)*

Average remaining period until final maturity of all credits in the debt portfolio.

Net asset value on the balance sheet date (SEK million)

Equity plus deferred tax liability.

Debt / EBITDA (rolling 12 months) (multiple)

Time-weighted interest-bearing liabilities divided by profit before financial items with reversal of depreciation. Due to seasonality in EBITDA, this key performance indicator is calculated using the last 12 months' rolling data.

Economic occupancy ratio, residential (%)

Rental income from residential units divided by rental income including estimated rent for vacant apartments. Rent is estimated for a vacant apartment based on the most recent contracted rent for such apartment.

Real economic occupancy ratio, residential (%)

Rental income from residential units divided by rental income including estimated rent for vacant apartments adjusted for voluntary vacancies due to standard improvements.

Operating profit before inventory properties and fair value adjustments (SEK millions)

Profit excluding changes in value and tax. Operating profit before inventory properties and fair value adjustments is a key performance measure that Heimstaden Bostad considers to be relevant for assessing the earnings generation of the underlying operations.

Proportion residential fair value on balance sheet date (%)*

This is calculated as the fair value of residential units as share of total fair value of investment properties.

Net financial items (SEK million)

This is the net sum of income and costs relating to financial activities.

TAXATION

SWEDEN

The following summary outlines certain Swedish tax consequences of the acquisition, ownership and disposal of Notes. The summary is based on the laws of Sweden as in effect as of the date of this Base Prospectus and is intended to provide general information only. The summary is not exhaustive and does thus not address all potential aspects of Swedish taxation that may be relevant for a potential investor in the Notes and is neither intended to be nor should be construed as legal or tax advice. In particular, the summary does not address the rules regarding reporting obligations for, among others, payers of interest. Specific tax consequences may be applicable to certain categories of corporations, e.g. investment companies and life insurance companies, not described below. In addition, the summary does not address Notes that are held on an "investment savings account" (investeringssparkonto) or through a "capital insurance" (kapitalförsäkring). Investors should consult their professional tax advisers regarding the Swedish and foreign tax consequences (including the applicability and effect of double taxation treaties) of acquiring, owning and disposing of Notes in their particular circumstances.

Non-resident holders of Notes

As used herein, a non-resident holder means a holder of Notes who is (a) an individual who is not a resident of Sweden for tax purposes and who has no and has not had any connection to Sweden other than his/her investment in the Notes, or (b) an entity not organised under the laws of Sweden and which does not carry out any business activities from a permanent establishment in Sweden.

Payments of any principal amount under a Note or any amount that is considered to be interest for Swedish tax purposes to a non-resident holder of any Notes should not be subject to Swedish income tax **provided that** such holder does not carry out business activities from a permanent establishment in Sweden to which the Notes are attributable. Under Swedish tax law, no withholding tax is imposed on payments of principal amounts under Notes or interest to a non-resident holder of Notes.

Notwithstanding the above, a private individual may be liable to pay taxes in Sweden on a limited basis even if he/she is not resident in Sweden, providing that he/she has been resident in Sweden or has lived permanently in Sweden at any time during the calendar year of, or the ten calendar years preceding, a disposal or redemption of certain financial instruments, depending on the classification of the particular financial instrument for Swedish income tax purposes. This liability may, however, be limited by tax treaties between Sweden and other countries.

Resident holders of Notes

As used herein, a resident holder means a holder of Notes who is (a) an individual who is a resident in Sweden for tax purposes and thereby liable to pay taxes on an unlimited basis, i.e. on all income regardless of source, or (b) an entity organized under the laws of Sweden.

Generally, for Swedish corporations and individuals (and estates of deceased individuals) that are resident holders of any Notes, all income derived from capital assets (e.g. income that is considered to be interest for Swedish tax purposes and capital gains on Notes) will be taxable.

Amortisation of principal amounts under Notes is not otherwise subject to Swedish income tax. Any currency exchange gains or losses resulting from amortisations in other currencies than SEK may however be taxable or deductible according to the capital tax rules. Swedish tax law does not impose withholding tax on payments of principal amounts under Notes or interest. However, if amounts that are considered to be interest for Swedish tax purposes are paid to an individual (or an estate of a deceased person) that is a resident holder of Notes, Swedish preliminary tax (*preliminärskatt*) is normally withheld on such payments at a rate of 30%.

THE NETHERLANDS

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could have retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold

or dispose of Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph "Taxes on Income and Capital Gains" below, it is assumed that a holder of Notes, being an individual or a non-resident entity, does not have nor will have a substantial interest (aanmerkelijk belang), or - in the case of such holder being an entity - a deemed substantial interest, in the HBT and that no connected person (verbonden persoon) to the holder of a Note has or will have a substantial interest in the HBT.

Generally speaking, an individual has a substantial interest in an entity if (a) such individual, either alone or together with their partner, directly or indirectly has, or is deemed to have, or (b) certain relatives of such individual or their partner directly or indirectly have or are deemed to have, (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of such entity or the issued and outstanding capital of any class of shares of such entity, or (II) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of such entity. Generally, an individual has a deemed substantial interest in a company if (i) they or their predecessor has disposed of or is deemed to have disposed of all or part of a substantial interest or (ii) he has transferred an enterprise in exchange for shares in such company, in each case, on a non-recognition basis.

Generally speaking, a non-resident entity has a substantial interest in an entity if such entity, directly or indirectly has (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of such entity or the issued and outstanding capital of any class of shares of such entity, or (II) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of such entity. Generally, an non-resident entity has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes or would be taxable as a corporation for Dutch corporate tax purposes in case such corporation or other person would be or would be deemed to be tax resident in the Netherlands for Dutch corporate tax purposes.

Where this summary refers to "the Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers as to the tax consequences of acquiring, holding and disposing of Notes.

Withholding Tax

All payments of principal and interest by the HBT under the Notes can be made without withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein, save that:

Dutch withholding tax may apply on certain (deemed) payments of interest made to an affiliated (*gelieerde*) entity of the HBT if such entity (i) is considered to be resident (*gevestigd*) in a jurisdiction that is listed in the yearly updated Dutch Regulation on low-taxing states and non-cooperative jurisdictions for tax purposes (*Regeling laagbelastende staten en niet-coöperatieve rechtsgebieden voor belastingdoeleinden*), or (ii) has a permanent establishment located in such jurisdiction to which the interest is attributable, or (iii) is entitled to the interest payable for the main purpose or one of the main purposes to avoid taxation for another person, or (iv) is not considered to be the recipient of the interest in its jurisdiction of residence because such jurisdiction treats another (lower-tier) entity as the recipient of the interest (a hybrid mismatch), or (v) is not treated as resident anywhere (also a hybrid mismatch), all within the meaning of the Withholding Tax Act 2021 (*Wet bronbelasting 2021*).

Taxes on Income and Capital Gains

Residents

Resident entities

An entity holding Notes which is or is deemed to be resident in the Netherlands for Dutch corporate tax purposes and which is not tax exempt, will generally be subject to Dutch corporate tax in respect of income or a capital gain derived from the Notes at the prevailing statutory rates (up to 25% in 2021).

Resident individuals

An individual holding Notes who is or is deemed to be resident in the Netherlands for Dutch income tax purposes will be subject to Dutch income tax in respect of income or a capital gain derived from the Notes at the prevailing statutory rates (up to 49.50% in 2021) if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain otherwise qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, the individual will generally be subject to Dutch income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. For 2021, the deemed return ranges from 1.90% to 5.69% of the value of the individual's net assets as at the beginning of the relevant fiscal year (including the Notes). The applicable percentages will be updated annually on the basis of historic market yields. Subject to application of certain allowances, the deemed return will be taxed at the prevailing statutory rate (31% in 2021).

Non-residents

A holder of Notes which is not and is not deemed to be resident in the Netherlands for the relevant tax purposes will not be subject to Dutch taxation on income or a capital gain derived from the Notes unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in the Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) taxable in the Netherlands and the holder derives profits from such enterprise (other than by way of the holding of securities); or
- (ii) the holder is an individual and the income or capital gain otherwise qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and Inheritance Taxes

Dutch gift or inheritance tax will not be levied on the occasion of the transfer of Notes by way of gift by, or on the death of, a holder of Notes, unless:

- (i) the holder is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

Value Added Tax

There is no Dutch value added tax payable by a holder of Notes in respect of payments in consideration for the issue or acquisition of Notes, payments of principal and interest under the Notes, or payments in consideration for a disposal of Notes.

Other Taxes and Duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in the Netherlands by a holder of Notes in respect of or in connection with the acquisition, holding or disposal of Notes, the

execution, delivery or enforcement by legal proceedings (including any foreign judgment in the courts of the Netherlands) of the Notes or the performance of HBT's obligations under the Notes.

Residence

A holder of Notes will not be and will not be deemed to be resident in the Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation, by reason only of acquiring, holding or disposing of Notes or the execution, performance, delivery and/or enforcement of the Notes.

FATCA DISCLOSURE

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "**foreign financial institution**" (as defined by FATCA) may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting or related requirements. Each Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including Sweden and the Netherlands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are published generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of any Issuer). However, if additional Notes (as described under Condition 18 (*Further Issues*)) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

The proposed Financial Transactions Tax (FTT)

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or certain of the participating Member States may decide to

withdraw. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

The Dealers have, in a Programme Agreement (such Programme Agreement as modified and/or supplemented and/or restated from time to time, the "**Programme Agreement**") dated 26 August 2021, agreed with the Issuers and the Guarantor a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and "*Terms and Conditions of the Notes*". In the Programme Agreement, the relevant Issuer (failing which, the Guarantor) has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

SELLING RESTRICTIONS

United States

The Notes and the Guarantee have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold within the United States to, or for the account or benefit of, U.S. persons except in certain transactions exempt from or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The applicable Final Terms will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S of the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Prohibition of sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area ("**EEA**"). For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation; and

- (b) the expression an **"offer"** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", in relation to each Member State of the EEA, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (a) to (c) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- the expression **"an offer of Notes to the public"** in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes; and
- The expression **"Prospectus Regulation"** means Regulation (EU) 2017/1129.

United Kingdom

Prohibition of sales to UK Retail Investors

Unless the Final Terms in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision:

- (a) the expression **"retail investor"** means a person who is one (or more) of the following:
- (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or
- (ii) a customer within the meaning of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or
- (iii) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation; and
- (b) the expression an **"offer"** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the

Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (a) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (c) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (a) to (c) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision:

- the expression "**an offer of Notes to the public**" in relation to any Notes in the UK means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes; and
- the expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

Dealers transacting with the Issuers and the Guarantor

Certain of the Dealers and their affiliates may have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for the Issuers, the Guarantor and their affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuers, the Guarantor and their affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers, the Guarantor or their affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers, the Guarantor or their affiliates routinely hedge their credit exposure to the Issuers, the Guarantor or their affiliates consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
